

To whom it may concern,

I write this letter to OPPOSE the amendment in the 'DOMESTIC VIOLENCE BILL'.

I am an I.T. consultant in the Hong Kong SAR Government. In my daily work, I have to contact different types of end users ranging from parents to young staff. In our dialogue, everyone concerns about core family values. Even our discussion starts from computer problems, we would also talk about other controversial issues in society.

What I discern is my clients and colleagues really concerns FAMILY. Parent colleagues concern whether their children are protected. They cannot image their children or their grand-children are living in a BI-FATHERS or BI-MOTHERS family. 'F-A-M-I-L-Y' means 'Father And Mother I Love You'.

If homosexual family is included in the 'Domestic Violence Ordinance', homosexual family is implicitly affirmed. FAMILY would mean 'Father And Father I Love You' or 'Mother And Mother I Love You'. How come?

Besides, I discern that this young generation is already collapsing in MORALITY. The youth is really affected by the cyber-world in internet. They cannot easily get known of what is RIGHT or WRONG. There are already so many discussions of the homosexual family in internet. You can connect to popular search websites like yahoo.com, google.com and discussion.com.hk to find out.

In several instances, I have witnessed same sex students wearing school uniforms and embracing each others with French kiss in buses and MTR trains.

We must protect our core family value and our children. I strongly OPPOSE to include homosexual cohabitation in the Domestic Violence Law.

TS Chan
