LC Paper No. CB(2)1451/08-09(05)

## **Legislative Council Panel on Welfare Services**

### **Work Progress of the Family Council**

#### **Purpose**

This paper briefs Members on the progress of work of the Family Council.

#### **Background**

2. At the meeting of the Welfare Services Panel on 14 February 2008, Members noted that the Family Council would seek to rationalize the work relation between the Council and the Elderly Commission (EC), the Women's Commission (WoC) and the Commission on Youth (CoY). The Administration was requested to revert to this Panel on the work progress of the Family Council.

#### **Recent Developments**

3. As an advisory body to the Government, the Family Council provides a high-level platform for discussion of major issues from the family perspective and strategic directions and priorities on family-related policies. Provision of services to support families will continue to be financed and delivered by different relevant service providers and delivery agents.

4. The Family Council has identified family core values<sup>1</sup>, discussed ways to achieve a pro-family environment and made recommendations on better synergy of work between the Council and the EC, WoC and CoY (the Commissions). A list of initiatives currently undertaken by the Family Council and major stakeholders to promote family core values and cherishing the family as a main driver for social harmony is enclosed at **Annex** for Members' reference. On the working relationships with the Commissions, the Council recommended that while they should continue to perform their roles in relevant sector-specific areas, they could form a closer alliance with the Family Council and make more concerted efforts to help enhance support services for families having regard to the advice of the Family Council pertaining to family core values and family-based programmes, in order to achieve greater synergy of work between the Family Council and the Commissions. The Commissions would help identify deliverables through their on-going programmes to meet objectives on family-related matters set by the Family Council as appropriate. Should the Council wish to initiate collaborative projects to foster family-related support and education measures, the Government and the Commissions would render full support to the Council and devise relevant projects where resources permit.

5. To facilitate communication and co-operation between the Commissions and the Council, the Chairpersons of the Commissions have been appointed as ex-officio members of the Family Council with effect from 1 April 2009. The working relationship between the Family Council and the Commissions will be kept under review.

---

<sup>1</sup> The Council recognized that family is the cornerstone for social harmony. Toward this end, the Council has identified the following as the family core values as the key elements to a healthy and happy family life - Love and Care (愛與關懷); Respect and Responsibility (責任與尊重); and Communication and Harmony (溝通與和諧).

## **Way Forward**

6. The Family Council will continue to work with relevant stakeholders to further promote and publicize family core values in a sustainable manner, identify ways to enhance effectiveness and co-ordination of family education in particular parental education, and ways to foster pro-family measures. To facilitate the work of the Council, consideration will be given to setting up sub-committees and co-opting talents and advice from experts and professionals outside the Council on need basis to conduct more in-depth deliberations on the above areas.

7. The Government and the Family Council will continue to work closely with relevant stakeholders to promote pro-family environment, and enhance public awareness and promote better public understanding and culture in cherishing families as a main driver for social harmony.
