

L.N. 4 of 2009**PROTECTION OF ENDANGERED SPECIES OF ANIMALS AND
PLANTS ORDINANCE (AMENDMENT OF SCHEDULE 1)
ORDER 2009**

(Made by the Secretary for the Environment under section 48 of
the Protection of Endangered Species of Animals and
Plants Ordinance (Cap. 586))

1. Commencement

This Order comes into operation on 13 March 2009.

2. Scheduled species

Schedule 1 to the Protection of Endangered Species of Animals and Plants Ordinance (Cap. 586) is amended—

(a) in Part 1, by repealing section 7 and substituting—

“7. When a species is included in one of the Appendices, all parts and derivatives of the species are also included in the same Appendix unless the species is annotated to indicate that only specific parts and derivatives are included. The symbol (#) followed by a number placed against the name of an Appendix II species or Appendix III species designates parts or derivatives that are specified in relation to that species for the purposes of this Ordinance as follows—

#1 Designates all parts and derivatives, except—

- (a) seeds, spores and pollen (including pollinia);
- (b) seedling or tissue cultures obtained *in vitro*, in solid or liquid media, transported in sterile containers;
- (c) cut flowers of artificially propagated plants; and
- (d) fruits, parts of fruits, and derivatives of fruits, of artificially propagated plants of the genus *Vanilla*.

#2 Designates all parts and derivatives, except—

- (a) seeds and pollen; and
- (b) finished products packaged and ready for retail trade.

#3 Designates whole and sliced roots and parts of roots.

#4 Designates all parts and derivatives, except—

- (a) seeds, except those from Mexican cacti originating in Mexico, and pollen;

- (b) seedling or tissue cultures obtained *in vitro*, in solid or liquid media, transported in sterile containers;
- (c) cut flowers of artificially propagated plants;
- (d) fruits, parts of fruits, and derivatives of fruits, of naturalized or artificially propagated plants; and
- (e) separate stem joints (pads), parts of separate stem joints (pads), and derivatives of separate stem joints (pads), of naturalized or artificially propagated plants of the genus *Opuntia* subgenus *Opuntia*.

#5 Designates logs, sawn wood and veneer sheets.

#6 Designates logs, sawn wood, veneer sheets and plywood.

#7 Designates logs, wood-chips, powder and extracts.

#8 Designates underground parts (i.e. roots, rhizomes): whole, parts and powdered.

#9 Designates all parts and derivatives except those bearing a label “Produced from *Hoodia* spp. material obtained through controlled harvesting and production in collaboration with the CITES Management Authorities of Botswana/Namibia/South Africa under agreement no. BW/NA/ZA xxxxxx”.

#10 Designates logs, sawn wood and veneer sheets, including unfinished wood articles used for the fabrication of bows for stringed musical instruments.

#11 Designates logs, sawn wood, veneer sheets, plywood, powder and extracts.”;

- (b) by repealing Part 2 and substituting—

1. Any specimen of the population of Argentina shall be treated as a specimen of an Appendix II species only if it is imported, exported or re-exported as—
 - (a) wool sheared from live vicuñas;
 - (b) cloth made of such wool, the reverse side of which must bear the logotype adopted by the range states of the species, which are signatories to the *Convenio para la Conservación y Manejo de la Vicuña*, and the selvages the words “VICUÑA-ARGENTINA”; or
 - (c) a derived manufactured product or other handicraft artefact, and must bear a label including the logotype and the designation “VICUÑA-ARGENTINA-ARTESANÍA”.

All other specimens shall be deemed to be specimens of species included in Appendix I and the trade in them shall be regulated accordingly.
2. Any specimen of the population of Bolivia shall be treated as a specimen of an Appendix II species only if it is imported, exported or re-exported as—
 - (a) wool sheared from live vicuñas;
 - (b) cloth made of such wool, the reverse side of which must bear the logotype adopted by the range states of the species, which are signatories to the *Convenio para la Conservación y Manejo de la Vicuña*, and the selvages the words “VICUÑA-BOLIVIA”; or
 - (c) an item made of such wool, including luxury handicrafts and knitted articles, and must bear a label including the logotype and the designation “VICUÑA-BOLIVIA-ARTESANÍA”.

All other specimens shall be deemed to be specimens of species included in Appendix I and the trade in them shall be regulated accordingly.

3. Any specimen of the population of Chile shall be treated as a specimen of an Appendix II species only if it is imported, exported or re-exported as—
 - (a) wool sheared from live vicuñas;
 - (b) cloth made of such wool, the reverse side of which must bear the logotype adopted by the range states of the species, which are signatories to the *Convenio para la Conservación y Manejo de la Vicuña*, and the selvages the words “VICUÑA-CHILE”; or
 - (c) an item made of such wool, including luxury handicrafts and knitted articles, and must bear a label including the logotype and the designation “VICUÑA-CHILE-ARTESANÍA”.

All other specimens shall be deemed to be specimens of species included in Appendix I and the trade in them shall be regulated accordingly.

4. Any specimen of the population of Peru shall be treated as a specimen of an Appendix II species only if it is imported, exported or re-exported as—
 - (a) wool sheared from live vicuñas and in the stock extant at the time of the ninth meeting of the Conference of the Parties (November 1994) of 3 249 kg of wool;
 - (b) cloth made of such wool, the reverse side of which must bear the logotype adopted by the range states of the species, which are signatories to the *Convenio para la Conservación y Manejo de la Vicuña*, and the selvages the words “VICUÑA-PERÚ”; or
 - (c) an item made of such wool, including luxury handicrafts and knitted articles, and must bear a label including the logotype and the designation “VICUÑA-PERÚ-ARTESANÍA”.

All other specimens shall be deemed to be specimens of species included in Appendix I and the trade in them shall be regulated accordingly.

5. Any specimen of the populations of Botswana, Namibia, South Africa and Zimbabwe shall be treated as a specimen of an Appendix II species only if it is imported, exported or re-exported as—
 - (a) hunting trophies for non-commercial purposes;
 - (b) live animals to appropriate and acceptable destinations, as defined in Resolution Conf. 11.20, for Botswana and Zimbabwe and for *in situ* conservation programmes for Namibia and South Africa;

- (c) hides;
- (d) hair;
- (e) leather goods for commercial or non-commercial purposes for Botswana, Namibia and South Africa and for non-commercial purposes for Zimbabwe;
- (f) individually marked and certified ekipa incorporated in finished jewellery for non-commercial purposes for Namibia and ivory carvings for non-commercial purposes for Zimbabwe; or
- (g) registered raw ivory (whole tusks and pieces) subject to the following—
 - (i) only registered government-owned stocks, originating in the state (excluding seized ivory and ivory of unknown origin);
 - (ii) only to trading partners that have been verified by the Secretariat, in consultation with the Standing Committee under the Convention, to have sufficient national legislation and domestic trade controls to ensure that the imported ivory will not be re-exported and will be managed in accordance with all requirements of Resolution Conf. 10.10 (Rev. CoP14) concerning domestic manufacturing and trade;
 - (iii) not before the Secretariat has verified the prospective importing countries, and the registered government-owned stocks;
 - (iv) raw ivory pursuant to the conditional sale of registered government-owned ivory stocks agreed at CoP12, which are 20 000 kg (Botswana), 10 000 kg (Namibia) and 30 000 kg (South Africa);
 - (v) in addition to the quantities agreed at CoP12, government-owned ivory from Botswana, Namibia, South Africa and Zimbabwe registered by 31 January 2007 and verified by the Secretariat may be traded and despatched, with the ivory in subparagraph (iv), in a single sale per destination under strict supervision of the Secretariat;
 - (vi) the proceeds of the trade are used exclusively for elephant conservation and community conservation and development programmes within or adjacent to the elephant range; and
 - (vii) the additional quantities specified in subparagraph (v) shall be traded only after the Standing Committee under the Convention has agreed that the above conditions have been met.

On a proposal from the Secretariat, the Standing Committee under the Convention can decide to cause this trade to cease partially or completely in the event of non-compliance by the place of import or export, or in the case of proven detrimental impacts of the trade on other elephant populations.

All other specimens shall be deemed to be specimens of species included in Appendix I and the trade in them shall be regulated accordingly.

6. Artificially propagated specimens of the following hybrids and/or cultivars are not subject to the provisions of this Ordinance—
 - *Hatiora x graeseri*
 - *Schlumbergera x buckleyi*
 - *Schlumbergera russelliana x Schlumbergera truncata*
 - *Schlumbergera orssichiana x Schlumbergera truncata*
 - *Schlumbergera opuntioides x Schlumbergera truncata*
 - *Schlumbergera truncata* (cultivars)
 - Cactaceae spp. colour mutants lacking chlorophyll, grafted on the following grafting stocks: *Harrisia 'Jusbertii'*, *Hylocereus trigonus* or *Hylocereus undatus*
 - *Opuntia microdasys* (cultivars).
7. Artificially propagated specimens of hybrids of the genera *Cymbidium*, *Dendrobium*, *Phalaenopsis* and *Vanda* are not subject to the provisions of this Ordinance when—
 - (a) the specimens are readily recognizable as artificially propagated and do not show any signs of having been collected in the wild such as mechanical damage or strong dehydration resulting from collection, irregular growth and heterogeneous size and shape within a taxon and shipment, algae or other epiphyllous organisms adhering to leaves, or damage by insects or other pests; and
 - (b) (i) the specimens are shipped in non-flowering state, the specimens must be traded in shipments consisting of individual containers (such as cartons, boxes, crates or individual shelves of CC-containers) each containing 20 or more plants of the same hybrid; the plants within each container must exhibit a high degree of uniformity and healthiness; and the shipment must be accompanied by documentation, such as an invoice, which clearly states the number of plants of each hybrid; or

- (ii) the specimens are shipped in flowering state, with at least one fully open flower per specimen, no minimum number of specimens per shipment is required but specimens must be professionally processed for commercial retail sale, e.g. labelled with printed labels or packaged with printed packages indicating the name of the hybrid and the place of final processing. This should be clearly visible and allow easy verification.

Plants not clearly meeting the above criteria must be accompanied by appropriate Convention certifying documents.

8. Unless imported, exported or re-exported as dormant tubers, artificially propagated specimens of cultivars of *Cyclamen persicum* are not subject to the provisions of this Ordinance.
9. Artificially propagated hybrids and cultivars of *Taxus cuspidata*, live, in pots or other small containers, each consignment being accompanied by a label or document stating the name of the taxon or taxa and the text “artificially propagated”, are not subject to the provisions of this Ordinance.”.
