Association of Motion Picture Post Production

8 February 2012

Dear Members of the Competition Bill Committee at Legco 2012,

The AMP4, Hong Kong Association of Motion Pictures Post Production Professionals, www.amp4.com.hk, has resolved to issue a statement in support of TDC's current role with her industrial support to our related industry in providing services of international road show, trade fair, web promotion, networking and organizing business crossover meetings. Among these, Filmart and Entertainment Expo has been a key annual event.

In view of the upcoming Competition Bill Committee meeting at Legco, scheduled to be held on 14 Feb 2012, both the Executive Committee and Members of AMP4 would like to express our common concerns in the possible disturbance caused to TDC's current semi-public role in the supports and promotion for SMEs of the Movie industry sector. We would like to see a further in-depth study with your esteemed committee in allowing certain exemptions to her roles in the prep of the new Competition Bill, thus allow her continuous support to our industry.

Many of the individual members' and members' companies have a very long and successful working relationship with TDC, her resolution to promote Hong Kong as a leading international creation hub, being the center for high quality movie and entertainment services. We all well treasured TDC's contribution on their high endurance in the very long term planning process, and as well as their vision and mission toward the commitment for new business SMEs' opportunities.

Thank you very much for your kind attention,

Sincerely

Percy Fung
