Bills Committee on Competition Bill  
Legislative Council

Dear Sir/Madam,

**Exemption of HKTDC in Competition Law**

Hape is a manufacturer of wooden toys, we have participated in HKTDC exhibitions for many years, and get their full assistance and support. They can provide many different kinds of services for the exhibitors in the marketing activities, so that our products and business can be successfully extended to the global market. Also helped in the past years our company has a very good development.

Regarding to the competition law in HK, if HKTDC is listed as competition law regulations, as a SME, we are afraid of the identified organizations held in a different arrangement, participation fees will rise and face the problem of declining quality. Also SMEs in the future we may be in marketing made adverse effects.

HKTDC is a very mature and extensive experience in marketing with organization development. In the past of Hong Kong, HKTDC made a signification contribution. Not only will Hong Kong's domestic industry to the world, and also help Hong Kong enterprises can continue develop. So, on behalf of our company I hope that HKTDC can be incorporated into competition law exemption.

Yours sincerely,

Andrew Ng  
General Manager
