**Motion on
“Actively resolving deep-rooted conflicts”
to be moved by Hon Albert CHAN Wai-yip
at the Legislative Council meeting
of Wednesday, 27 January 2010**

Wording of the Motion

That, since the transfer of sovereignty 12 years ago, the problem of deep-rooted political, economic and social conflicts in Hong Kong has been worsening; regarding constitutional reform, the pace of democracy remains stagnant while the functional constituency elections of the Legislative Council have even resulted in public aspirations being distorted in the legislature; on the economic front, as monopoly by consortia is becoming more rampant, the difficulties of the ordinary public and small businesses are increasing, and the problem of disparity between the rich and the poor is aggravating, with the population of the poor even having doubled as compared to that before 1997 and the problems of class conflicts and social confrontation in the Hong Kong society continuously intensifying; in view of the above, this Council urges the Government to formulate effective policies to resolve deep-rooted conflicts, implement dual universal suffrage at an early date, provide a platform for fair competition and alleviate the disparity between the rich and the poor; in addition, Hong Kong people should not remain silent about unfair and unjust phenomena, and more importantly, should not tolerate the Government's practice of tilting in favour of large consortia, the public should therefore actively participate in social and political movements and spare no effort in striving for early implementation of dual universal suffrage so as to facilitate the realization of social justice.
