To : All Members of the Legislative Council

Council meeting of 27 January 2010

**Motion on
“Promoting the development of fishing activities”**

Hon WONG Yung-kan has given notice to move the attached motion on “Promoting the development of fishing activities” at the Council meeting of 27 January 2010. The President has directed that “it be printed in the terms in which it was handed in” on the Agenda of the Council.

(Mrs Justina LAM)
for Clerk to the Legislative Council

Encl.

(Translation)

**Motion on
“Promoting the development of fishing activities”
to be moved by Hon WONG Yung-kan
at the Legislative Council meeting
of Wednesday, 27 January 2010**

Wording of the Motion

That, as fishing is both a sport and a leisure activity, which has the characteristics of having diversified ways of participation and being suitable for people of various age groups, it has attracted many enthusiasts; and the rapid development of fishing-related industries has caused governments worldwide to formulate policies to develop local fishing activities; Hong Kong, being surrounded by the sea and with convenient transport, has the advantages for developing fishing activities, and the number of fishing enthusiasts has also continued to increase in recent years, yet due to the lack of appropriate policies, the development of fishing activities in Hong Kong is subject to many restrictions; as such, this Council urges the Government to formulate effective measures to promote the development of fishing activities in Hong Kong, which include:

- (a) to relax the existing restrictions on angling at fish rafts and fish ponds, so that the operators can provide more diversified services to cater for the needs of the public;
- (b) to relax the existing restrictions on passenger capacity of fishing vessels and, provided that safety standards are met, allow fishermen to operate an additional business of carrying passengers to go angling at sea;
- (c) to organize systematic training courses and set up a knowledge bank, so that fishing enthusiasts have the opportunities to acquire the knowledge of fishing skills, safety management and marine conservation, etc.;
- (d) to step up publicity on reservoir angling and provide more comprehensive facilities to attract more members of the public as well as tourists to engage in such leisure activity;
- (e) to provide additional resources to improve the conservation of marine resources, enhance the environment of the harbourfront, and increase facilities and safety equipment which are conducive to fishing activities, so as to facilitate fishing enthusiasts to enjoy angling on shore;

- (f) to encourage and assist in the organization of local and international fishing competitions to promote fishing activities, and to promote the beautiful coastal environment of Hong Kong to other places;
- (g) to study the establishment of a fishing licensing system with a view to striking a balance between the conservation of marine resources and promotion of the sustainable development of fishing activities; and
- (h) to study co-operating with the Pearl River Delta region to achieve better development and conservation of the entire waters, so as to facilitate the development of fishing activities.
