**Motion debate on  
“Eradicating plutocratic monopoly and promoting social harmony”  
to be held at the Legislative Council meeting  
of Wednesday, 28 April 2010**

**1. Hon LEE Cheuk-yan’s original motion**

That the Hong Kong Institute of Asia-Pacific Studies of The Chinese University of Hong Kong has earlier published the findings of an opinion poll, confirming that Hong Kong is not a harmonious society and estimating that there are 1.5 million people in favour of resorting to radical means to press the Government to respond to their demands, which tolls the death bell for the Government’s credibility of its governance; this Council considers that the fundamental reasons contributing to social disharmony in Hong Kong are the plutocratic monopoly of political and economic powers and the Government’s implementation of policies which are biased towards the interests of people who are powerful and wealthy, resulting in the aggravation of class conflicts and the worsening of confrontation between the Government and the people; in this connection, this Council urges that the Government should not continue to disregard social crises and leave the people to be trapped in a state of worries, and must change its course to make fundamental reforms, including abolishing the political privileges of functional bodies and formulating measures to narrow the gap between the rich and the poor, maintain social mobility and ensure fair competition, thereby alleviating the deep-rooted conflicts in Hong Kong and promoting social harmony.

**2. Motion as amended by Hon Ronny TONG Ka-wah**

That, *as* the Hong Kong Institute of Asia-Pacific Studies of The Chinese University of Hong Kong has earlier published the findings of an opinion poll, confirming that Hong Kong is not a harmonious society and estimating that there are 1.5 million people in favour of resorting to radical means to press the Government to respond to their demands, which tolls the death bell for the Government’s credibility of its governance; this Council considers that the fundamental reasons contributing to social disharmony in Hong Kong are the plutocratic monopoly of political and economic powers and the Government’s implementation of policies which are biased towards the interests of people who are powerful and wealthy, resulting in the aggravation of class conflicts and the worsening of confrontation ~~between~~ *among* the Government, *the business sector* and the people; in this connection, this Council urges that the Government should not continue to disregard social crises and leave the people to be trapped in a state of worries, and must change its course to make fundamental reforms, including abolishing the political privileges of functional bodies, *changing the existing policies which are biased towards the business sector,*

and formulating measures to narrow the gap between the rich and the poor, maintain social mobility and ensure fair competition, thereby *resolving the conflicts of interest between the business sector and the people*, alleviating the deep-rooted conflicts in Hong Kong and promoting social harmony.

### **3. Motion as amended by Hon Emily LAU Wai-hing**

That *in recent years social conflicts have become daily occurrences, and* the Hong Kong Institute of Asia-Pacific Studies of The Chinese University of Hong Kong has earlier published the findings of an opinion poll, confirming that Hong Kong is not a harmonious society and estimating that there are 1.5 million people in favour of resorting to radical means to press the Government to respond to their demands, which tolls the death bell for the Government's credibility of its governance; this Council considers that the fundamental reasons contributing to social disharmony in Hong Kong are the plutocratic monopoly of political and economic powers and the Government's implementation of policies which are biased towards the interests of people who are powerful and wealthy, resulting in the aggravation of class conflicts and the worsening of confrontation between the Government and the people; in this connection, this Council urges that the Government should not continue to disregard social crises and leave the people to be trapped in a state of worries, and must change its course to make fundamental reforms, including abolishing the political privileges of functional bodies and formulating measures to narrow the gap between the rich and the poor, maintain social mobility and ensure fair competition; *this Council also appeals to all Hong Kong people to demonstrate their power on 2 May to urge the Government to implement genuine universal suffrage for the election of the Chief Executive and the Legislative Council, so as to resolve social confrontation and avoid Hong Kong being driven towards a crisis of being ungovernable*, thereby alleviating the deep-rooted conflicts in Hong Kong and promoting social harmony.
