Dear Mr Wong,

LegCo Panel on Development Meeting on 26 January 2010

At the above meeting, the Administration was requested to provide information on past cases where the land lease or deed of dedication requirement for the provision of public open space or public access in private developments has not yet been complied with and how those cases would be handled. We would like to advise that, according to our record, there have been no such cases.

Yours sincerely,

(Miss Diane Wong)
for Secretary for Development
