- (a) capital works project of the University Grants Committee-funded institutions – an integrated teaching building, The Chinese University of Hong Kong;

Items for discussion at future meetings

*Trial scheme on school drug testing in Tai Po*

11. The Chairman informed members that at the meeting of the Panel on Security held in the morning, it was agreed that the Panel on Security and the Panel on Education should convene a joint meeting in November 2009 to discuss issues relating to youth drug abuse including the trial scheme on school drug testing in Tai Po, and then decide how the subject should be followed up,

including whether a subcommittee under the two Panels should be set up.

12. Dr Priscilla LEUNG considered that the Panel should also follow up the development of rehabilitation centre-cum-schools for youth drug abusers. She noted that a number of organizations had applied for operating rehabilitation centre-cum-schools.

*Review of Pre-primary Education Voucher Scheme*

13. Ms Starry LEE suggested that as a number of issues relating to the Pre-primary Education Voucher Scheme remained to be solved, the Panel should continue to monitor the Scheme.

*Reduction of textbook prices and review of School Textbook Assistance Scheme*

14. Ms Starry LEE also proposed to follow up the reduction of textbook prices as well as the development of e-textbooks.

15. Miss Tanya CHAN shared the view that the subject of reduction of textbook prices should be discussed as soon as practicable.

16. Mr LEE Cheuk-yan considered it important to discuss the provision of internet access service fee under the School Textbook Assistance Scheme. The Chairman agreed that the subject should be discussed as early as practicable since payments of school textbook assistance was released in November or December every year.

17. Ms Audrey EU shared the view that internet access service fee should be provided to needy students as soon as practicable, and requested the Chairman to relay to the Administration of members' wish to discuss the issue at the special meeting on 20 October 2009.

*Education services proposed by the Task Force on Economic Challenges (TFEC) and development of private universities*

18. Miss Tanya CHAN suggested discussion on education services proposed by TFEC in December 2009.

19. Professor Patrick LAU was concerned about the development of private universities, in particular the number of places to be provided, and suggested early discussion on the subject. He also proposed discussion on training of personnel for the six industries proposed by TFEC.

*Liberal Studies*

Action

Liberal Studies. She pointed out that the Complaints Division of the Legislative Council had recently received complaints about the subject of Chinese History under the New Senior Secondary curriculum.

*International schools*

21. Mr Abraham SHEK raised concern about student enrolment in international schools built on land granted by the Government. He said that students admitted to international schools had to purchase debentures, only children from well-off families could attend such schools. He suggested that the Administration should be requested to provide written information on the policy concerning the proper use of public resources allocated to international schools.

22. The Chairman said that some international schools offered scholarships to needy students but some did not. Ms Audrey EU supported the request for written information from the Administration in this regard.

*School leaving arrangements for students studying in schools for children with intellectual disability*

23. Ms Audrey EU said that the Panel should follow up the school leaving arrangements for students studying in schools for children with intellectual disability (ID).

24. Mr Abraham SHEK shared the view, and said that the conditions in day activity centres and sheltered workshops were so poor that ID students were reluctant to leave schools to transit to these centres and workshops.

25. The Chairman said that she had raised the issue of education for students with special educational needs (SEN) at her meeting with the Chief Executive concerning the Policy Address 2009-2010. She was concerned that the Administration had approached the issue from welfare services angle instead of education. To better understand the conditions of special schools, the Chairman proposed a visit to such schools and sheltered workshops and/or day activity centres. Members agreed.

*Arts education in schools*

26. Miss Tanya CHAN considered it important to discuss arts education as it would help develop the creativity of students. She opined that the Administration had attached little importance to the matter. The Chairman suggested and members agreed that the Panel should first discuss the provision of arts education in schools. Subject to the outcome of discussion, the Panel might consider holding a joint meeting with the Panel on Home Affairs.
