

**Legislative Council Motion Debate on
“Report of the Select Committee to Inquire into Matters Relating to the
Post-service Work of Mr LEUNG Chin-man”**

Progress Report

Purpose

This paper sets out the developments since the captioned motion debate held at the Legislative Council sitting on 15 December 2010.

Recent Developments

2. In its report, the Select Committee to Inquire into Matters Relating to the Post-service Work of Mr LEUNG Chin-man (“Select Committee”) has made 23 recommendations on the existing arrangements governing the taking up of post-service work by directorate civil servants.

3. Following the publication of the Select Committee’s report in December 2010, the Administration conducted a one-month consultation with all the serving directorate civil servants, the staff sides of the central staff consultative councils and the departmental/grade management on the Select Committee’s recommendations. The Advisory Committee on Post-service Employment of Civil Servants and the Public Service Commission were also invited to tender their views.

4. The consultation period has ended and the Administration is now studying the views and suggestions received from the relevant stakeholders. The Administration will carefully consider the recommendations of the Select Committee as well as those of the independent Committee on Review of Post-service Outside Work for Directorate Civil Servants with a view to putting in place an improved regime as soon as possible.
