Panel on Administration of Justice and Legal Services

**Background brief prepared by the Legislative Council Secretariat
for the meeting on 23 May 2011**

**Framework Agreement on Hong Kong/Guangdong
Co-operation relating to co-operation on legal matters**

Purpose

This paper provides background information on the Framework Agreement on Hong Kong/Guangdong Co-operation ("Framework Agreement") and co-operation on legal matters under the Framework Agreement, and gives a brief account of the concerns raised by members of the Panel on Administration of Justice and Legal Services ("the Panel") on the subject.

Background

The Framework Agreement

2. In January 2009, the National Development and Reform Commission promulgated the Outline of the Plan for the Reform and Development of the Pearl River Delta ("the Outline"), which elevates the development of the Pearl River Delta region to the strategic level of national development, specifying Hong Kong/Guangdong co-operation as a national policy. One of the most important tasks in deepening Hong Kong/Guangdong co-operation is the joint formulation of the Framework Agreement as an official agreement between the two governments. According to the Administration, the Framework Agreement has translated the macro policies of the Outline into concrete measures, laying a foundation for seeking to incorporate the related initiatives into the National 12th Five-Year Plan. It has also served as an agenda for Hong Kong-Guangdong co-operation. The Chief Executive and the Governor of Guangdong Province signed the Framework Agreement in Beijing on 7 April 2010.

Co-operation on legal matters under the Framework Agreement

3. The Framework Agreement consists of two parts, namely the main text and the list of annual major initiatives. The specific policies and measures to attain greater co-operation in legal matters are set out in Clause 7 of Chapter 5 (Business Environment) of the main text of the Framework Agreement. The overall objective is to facilitate trade and investment by promoting greater co-operation between government organs as well as among legal professional bodies of Hong Kong and Guangdong on various aspects of the legal field.

4. On the co-operation on legal matters, the two sides agreed to –

- (a) establish a regime for the exchange of documents on laws and regulations, to provide guidelines on the operational procedures and rules for trade and investment; to establish a communication mechanism for the notification and consultation of legislative proposals concerning joint co-operation projects;
- (b) establish a co-ordination mechanism on legal affairs, to set up an expert group for consultation and co-operation on legal matters, and to handle issues relating to legal co-operation and to make recommendations on legislative proposals concerning the strengthening of co-operation on specific areas where necessary; and
- (c) support law firms of both sides to launch legal consultation services, and to promote exchange and co-operation among lawyers, public notaries and professionals in forensic examination.

5. The Framework Agreement also contains a list of major initiatives which set out the measures to be adopted to implement the Framework Agreement. The specific measures relating to the implementation of the co-operation proposals in 2010 are –

- (a) to establish a communication mechanism for the notification and consultation of legislative proposals concerning joint co-operation projects;
- (b) to establish a mechanism to consider the relevant practices, standards and procedures for forensic examination and to facilitate exchange between forensic examination bodies and academic institutes;

- (c) to explore the feasibility of establishing a Hong Kong-Guangdong co-ordination mechanism for notary services and to promote co-operation in areas such as the verification of notarized instruments, promotion of laws and regulations relating to notary services and facilitating exchange and communication on information of notary work; and
- (d) to establish a mechanism for the exchange and co-operation of appointed notaries between Hong Kong and Guangdong; to set up a scheme to provide for mutual visits between public notaries between the two sides and to provide training on notary matters on a regular basis.

Implementation of the various measures relating to co-operation on legal matters

6. At the request of the Panel, the Department of Justice ("DoJ") provided in May 2010 a paper to the Panel setting out the details of the Framework Agreement relating to co-operation on legal matters [issued vide LC Paper No. CB(2)1580/09-10 on 19 May 2010]. The Administration advised that it was the long term policy of DoJ to foster closer co-operation with the Mainland on legal matters. The Framework Agreement had provided a new platform for enhancing co-operation with the relevant authorities in Guangdong and to help promoting the legal services of Hong Kong in the Province. In the paper, DoJ has provided information on the implementation of the various measures in establishing a communication mechanism on legal matters, establishing a co-ordination mechanism for legal matters, promoting exchanges and co-operation between the legal sectors of Guangdong and Hong Kong, and promoting exchanges and co-operation among professionals in notary work and forensic examination. Members may wish to refer to the paper for the details.

Relevant concerns expressed by members of the Panel

7. When the Panel was briefed on the initiatives of DoJ in the 2010-2011 Policy Agenda at its special meeting on 22 October 2010, members noted that one of the new initiatives was to enhance legal co-operation with Guangdong pursuant to the Framework Agreement. Some members said that while a number of liberalization measures on legal services had been agreed on under the Mainland and Hong Kong Closer Economic Partnership Arrangement ("CEPA") and its various Supplementary Agreements and the Framework Agreement had been signed to strengthen co-operation between the legal professions in Hong Kong and the Mainland, legal professionals in Hong Kong

had reflected the concern that they had encountered difficulties in gaining a foothold in the legal service market on the Mainland. These members enquired about the measures taken by the Administration to assist the legal professionals.

8. The Administration advised that it had been in close liaison with the two legal professional bodies to gauge their needs in developing legal services on the Mainland and recognized the difficulties faced by the legal profession in this regard. The initiatives under CEPA were intended for the mutual interest of both sides, and the Mainland authorities would have regard to the needs and development of its legal profession in considering the liberalization measures under CEPA. It should also be noted that the legal service market on the Mainland was very competitive. Legal professionals in Hong Kong were facing keen competition not only from lawyers on the Mainland, but also those from other countries. Furthermore, given the different legal systems in Hong Kong and the Mainland, Hong Kong lawyers who had obtained qualifications as Mainland lawyers were subject to certain restrictions in their practice on the Mainland. Nevertheless, the Administration assured members that it would strive for more liberalization measures under CEPA to facilitate the legal profession's development on the Mainland.

Recent position

9. The Administration is scheduled to brief the Panel on the development of legal co-operation with Guangdong pursuant to the Framework Agreement at the upcoming meeting on 23 May 2011. The two legal professional bodies have been invited to give views specifically on any difficulties encountered in the development of legal services under CEPA at the same meeting.

Relevant papers
