Mr Michael M. Y. Suen,
Secretary for Education,
EDB.

20-10-2010.

Dear Mr Suen,

New Secondary School Site Urgently In Need

I write to urge your Bureau speeding up the bidding process of the Kai Tak New Secondary School Site and seriously consider allocating the site to us.

Having to educate 900 boys to face the 2000s in a very sub-standard & old building of the 1960s is unfair. The task has become inhuman when leakages attacked the staff and students during their busiest period! We have to apply for emergency repairs for 7 times for various spots, staff room and public staircases alike, from 23-7 to 22-9! The most unacceptable thing is that our staff had to flee to the Physics Laboratory for the preparation work of the new school year as water poured down from the roof like from the taps! Attached please find the photos taken.

We understand there are other important matters occupying your time but we could not agree to that our plight could be neglected for another 2 or 3 years!

We are patiently waiting for your favourable reply!

Thank you for your attention!

Yours sincerely,

(Rev. Plateros, C. G.)
Supervisor

c.c. **Hon Starry LEE Wai-king, JP,**
Chairperon, Panel on Education, Legislative Council
