Attn: The Clerk to Panel
Panel on Home Affairs
Home Affairs Bureau
HKSAR

Dear The Clerk to Panel,

Re: Views on whether Hong Kong should bid for hosting the 2023 Asian Games

More than 10 years have passed since our first attempt to host the Asian Games. In the point of view from our association, possibly there are no direct benefits to our trade by hosting Asian Games, and even may affect the tourists' intention for traveling to Hong Kong within the period due to crowded condition in together with special security protocol and restriction arrangements on traffic, yet as speaking in a standpoint of the travel trade, we should make a bigger investment with a view to gaining a bigger reward.

During this recent 10 years, sport in Hong Kong has continued to develop, and Hong Kong have successfully hosted and achieved good results in the international multi-sport events - the Olympic Equestrian Event in 2008 and the East Asian Games in 2009. That indicates Hong Kong has significantly enhanced sport amenities and assimilated abundant experiences throughout the period, which should be capable in handling similar events in worldwide.

2023 is not a short period from now, and hosting the Asian Games will be an important milestone for the development of sport and travel trade in Hong Kong, therefore we agreed Hong Kong to bid the hosting for 2023 Asian Game, and hopefully it can promote
