Hong Kong Triathlon Association

The medal wins of HK Cycling and the strong results of HK Triathlon (Top 4 Asian nations) in the 2010 Asian Games proves the winning abilities and promising potential of HK athletes. By hosting the 2023 Asian Games, HK can use the opportunity to establish training and competition venues for cycling, swimming and running. Triathlon, a multi-sports discipline and event, supports all efforts that can establish safe public roads and purpose built venues for HK people to take-up, enjoy, train and compete in combined long distance road cycling, open water swimming and road running races. A designated venue that combines all three sports in a single event promotes HK people to enjoy sports and establishes HK as a leading international sports tourism destination. The benefits to HK society will be multi-fold.
