

Panel on Security

**Proposal to form a subcommittee to review the Daya Bay
Nuclear Power Station Notification Mechanism**

**Terms of reference, work plan and time frame
proposed by Hon James TO**

Proposed terms of reference

To study issues relating to the Daya Bay Nuclear Power Station notification mechanism, and to make recommendations to the Panel where necessary.

Proposed work plan

The Subcommittee will focus its work on the following major issues -

- (a) the Daya Bay Nuclear Power Station notification mechanism, including the scope of incidents requiring notification, the time between the identification of an incident and notification, the mode of notification and the parties to be notified; and
- (b) the participation of the Hong Kong Special Administrative Region Government in the Nuclear Safety Consultative Committee of the Daya Bay Nuclear Power Station and the Ling Ao Nuclear Power Station.

Proposed time frame

The Subcommittee will complete its work within 12 months of its commencement and report to the Panel.
