The best Quality of Ferry Services in Discovery Bay

It is a well known fact that fuel prices have been going up sharply in the last few years. Retail price of gasoline has gone up more than 70%. "Fuel" is one of the major operation cost for transportation industry. Secondly, Inflation is the other major factor to raise the price. The government announced that the inflation rate is about 4.6% compare with last year.

The ferry fare has frozen several years. We are now receiving quality services from our Ferry operator. All public transport operators throughout the world is facing rising fuel price and inflation.

I believe that Transport Department have preformed their role to review and monitor Discovery Bay Transportation to minimize the impact of rising fuel price and inflation by tightly controlling their operation cost and efficiencies. Thus, Transport Department granted the approval to the operator. It is commonly believed that reasonable fare for the operation is an essential element to have the excellent service standard maintain at the existing level.

Being a well educated Discovery Bay's resident, we must be reasonable to accept only 7.5% which is less than the inflation for the last few years.

One of the Discovery Bay resident
