**Motion on
“Increasing land supply in Hong Kong and
perfecting the land reserve system”
to be moved by Ir Dr Hon Raymond HO
at the Council meeting of 20 June 2012**

Wording of the Motion

That Hong Kong is small but densely populated with the land falling short of the demand, and property prices have persistently remained at high levels; in order to resolve the problem of high property prices at root, this Council urges the Government to expeditiously increase land supply through different means, such as reclamation, rock cavern development, old district redevelopment, change of land use, land resumption and reusing former quarry sites, etc.; at the same time, the Government should also perfect the existing land reserve system to appropriately perform the function of adjusting land supply.
