LC Paper No. CB(1)829/11-12(06)

Ref. : CB1/PL/CI

**Panel on Commerce and Industry**

**Meeting on 17 January 2012**

**Updated background brief on  
trade relations between the Mainland and Hong Kong**

**Purpose**

This paper provides an update on the initiatives in place to foster trade relations between the Mainland and Hong Kong. It also summarizes Members' views and concerns on related issues.

**Initiatives to foster trade relations**

2. Since the reunification in 1997, communications between Hong Kong and the Mainland have become much more frequent in various aspects, especially in trade and commerce. Apart from being Hong Kong's largest trading partner and major investor, the Mainland is also the largest market and the major source of Hong Kong's re-export goods. In recent years, the launching of various major initiatives by the Central People's Government (CPG), such as the Mainland and Hong Kong Closer Economic Partnership Arrangement (CEPA), has greatly strengthened the linkage between Hong Kong and the Mainland in many aspects. Hong Kong has also been actively developing regional co-operation initiatives with the provincial governments and municipalities of the Mainland to further enhance communication and co-operation between the places concerned and Hong Kong.

**The Mainland and Hong Kong Closer Economic Partnership Arrangement**

3. CEPA is the first free trade agreement concluded by the Mainland and Hong Kong and it makes way for liberalization of trade in goods, trade in services, as well as trade and investment facilitation between the two places.

The Mainland and Hong Kong signed the main text of CEPA on 29 June 2003 and its six Annexes on 29 September 2003, and CEPA came into force on 1 January 2004. Pursuant to Article 3 of CEPA, which provides that the two sides will broaden and enrich from time to time the contents of CEPA through continuous and further reciprocal liberalization, seven Supplements to CEPA have been signed on 27 October 2004, 18 October 2005, 27 June 2006, 29 June 2007, 29 July 2008, 9 May 2009 and 27 May 2010 respectively for progressive implementation of liberalization measures under CEPA. On trade in goods, all products of Hong Kong importing into the Mainland enjoy preferential tariff free treatment if they meet the CEPA rules of origin. On trade in services, Hong Kong service suppliers (HKSS) enjoy preferential access to the Mainland market in selected service areas. Professional bodies of Hong Kong and regulatory authorities in the Mainland have also signed a number of agreements and arrangements on mutual recognition of professional qualifications. On trade and investment facilitation, both sides agree to enhance co-operation to improve the overall business environment.

4. According to the information provided by the Administration in November 2011, some 280 market liberalization and trade and investment facilitation measures in 44 service sectors have been promulgated. These measures have brought plenty of benefits and preferential treatments to businesses in Hong Kong. The Mainland and Hong Kong have also agreed on CEPA origin rules for over 1 600 Hong Kong products.

#### Hong Kong/Guangdong Co-operation Joint Conference

5. The Hong Kong Special Administrative Region Government (HKSARG) and the Guangdong Provincial Government jointly set up the Hong Kong/Guangdong Co-operation Joint Conference (HKGDCJC) in 1998 to study and co-ordinate issues of mutual interest, and to facilitate co-operation and exchanges of both sides.

6. The National Development and Reform Commission (NDRC) promulgated in January 2009 the "Outline of the Plan for the Reform and Development of the Pearl River Delta (PRD)" (the Outline), which elevates the development of the PRD Region to the strategic level of national development, specifying Hong Kong/Guangdong co-operation as a national policy. To translate the macro policies in the Outline into concrete measures that are conducive to the development of both places, Hong Kong and Guangdong signed the Framework Agreement on Hong Kong/Guangdong Co-operation (Framework Agreement) in the presence of the State Vice-President, Mr Xi Jinping, and senior officials from relevant ministries in Beijing in April 2010. This is the first agenda on Hong Kong/Guangdong co-operation ever endorsed and approved for implementation by the State Council since the establishment of HKGDCJC in

1998. The Framework Agreement sets out six long-term development positions for Hong Kong/Guangdong co-operation, including a world-class new economic region, a financial co-operation region, a manufacturing and modern services base, a modern economic circulation sphere, a quality living area and a world-class metropolitan cluster. Details and content of the Framework Agreement are set out in the Administration's paper issued vide LC Paper No. CB(1)1559/09-10(01) on 7 April 2010.

7. On 23 August 2011, the 14th Plenary of HKGDCJC was held in Hong Kong. Both sides reviewed the progress of major co-operation initiatives over the past year and discussed the direction of the future development. On commerce and trade, Hong Kong and Guangdong had been actively pushing forward the implementation of CEPA over the past year, and achieved remarkable results. Since the implementation of Supplement VII to CEPA in January 2011, Guangdong had promulgated the implementation details for all relevant pilot measures. Both sides considered the progress of implementation of the 2011 Work Plan satisfactory, and signed five co-operation documents after the Plenary. Guided by the National 12th Five-Year Plan and the objectives of the Framework Agreement, the HKSARG would continue to work closely with Guangdong and progressively implement various areas of work under the Framework Agreement to advance the overall competitiveness of the Pearl River Delta Region. Details of the major outcome of the Plenary are set out in the Administration's paper issued vide LC Paper No. CB(1)3102/10-11(01) on 12 October 2011.

#### National 12th Five-Year Plan

8. The "Outline of the Twelfth Five-Year Plan for the National Economic and Social Development of the People's Republic of China" (National 12th Five-Year Plan) passed at the 4th Session of the 11th National People's Congress held in March 2011 unprecedentedly included a dedicated chapter on the Hong Kong and Macao Special Administrative Regions (the Dedicated Chapter). This demonstrated the support given by CPG to Hong Kong in various aspects, including the support for Hong Kong in deepening its economic co-operation with the Mainland, namely the on-going implementation of CEPA, deepening co-operation among Guangdong, Hong Kong and Macao and implementation of the Framework Agreement.

9. In August 2011, Vice Premier of the State Council, Mr LI Keqiang, announced during his visit to Hong Kong a series of concrete policies and measures formulated by CPG under the requirements of the National 12th Five-Year Plan to support Hong Kong in further developing and deepening its co-operation with the Mainland. There were more than 30 policies and measures (the New Supporting Policies and Measures) covering areas such as

economic and trade, finance, society and people's livelihood, tourism and co-operation between Guangdong and Hong Kong, with the overall objective of enhancing development in six major areas, one of which was to increase the Mainland's opening to Hong Kong in trade in services significantly.

#### Hong Kong/Shenzhen Co-operation Meeting

10. The close liaison between Hong Kong and Shenzhen started in 1978 after the Mainland had begun its "reform and opening up". Since then, a broad base of co-operation has developed. Both sides have been maintaining close partnership on the basis of the "One Country, Two Systems" principle and the HKGDCJC. The Hong Kong/Shenzhen Co-operation Meeting co-chaired by the Chief Secretary (CS) for Administration and the Mayor of the Shenzhen Municipal Government was set up in 2004 with a view to consolidating the achievements attained in various co-operation initiatives and considering the co-operation in future so as to obtain synergy. Both parties co-chaired the 2011 Hong Kong/Shenzhen Co-operation Meeting on 25 November 2011 in Hong Kong. Since Shenzhen is one of the second batch "model cities on CEPA implementation" designated by the Ministry of Commerce in the Mainland, Hong Kong and Shenzhen will enhance co-operation in promotion and implementation of CEPA, with a view to further deepening the implementation of CEPA in Shenzhen.

11. The National 12th Five-Year Plan has affirmed the importance of Qianhai as the "Hong Kong/Guangdong modern service industries co-operation exemplary zone" in the national development strategy. The Guangdong Provincial Government announced in September 2011 that the development of transport infrastructure connecting Qianhai and neighbouring areas would be accelerated. Foreign-invested services sector enterprises in Qianhai could serve the entire Guangdong Province. In addition, some of the provincial approval authorities in respect of the establishment and operation of enterprises would be delegated to the Qianhai authorities. The early and pilot measures under CEPA could be implemented in Qianhai. Details of the 2011 Hong Kong/Shenzhen Co-operation Meeting are set out in the Administration's paper issued vide LC Paper No. CB(1)512/11-12(01) on 2 December 2011.

#### Hong Kong/Beijing Co-operation

12. In September 2004, the HKSARG and the Beijing Municipal Government established the Hong Kong/Beijing Economic and Trade Co-operation Conference to strengthen Hong Kong/Beijing co-operation and to tap the opportunities arising from CEPA and the 2008 Olympic Games. On 25 November 2010, the Chief Executive of the HKSAR and the Mayor of

the Beijing Municipal Government co-chaired the Third Plenary Session of the Conference to review the progress of co-operation in eight areas, namely, economic and trade, city management and public services, education, tourism, financial services, health, professional exchanges, as well as innovation technology and creative and cultural industries. Both sides also exchanged views on the direction for future co-operation. Details of the meeting are set out in the Administration's paper issued vide LC Paper No. CB(1)846/10-11(02) on 17 December 2010.

### Hong Kong/Shanghai Co-operation

13. In October 2003, the HKSARG and the Shanghai Municipal Government established the Hong Kong/Shanghai Economic and Trade Co-operation Conference, which aimed to foster closer economic and trade ties between the two places, particularly to leverage on the opportunities brought about by CEPA, as well as the World Expo held in Shanghai in 2010. The two sides agreed to strengthen co-operation under the CEPA framework and promote co-operation in eight areas, namely airport; port and maritime; Shanghai World Expo; tourism, convention and exhibition industry; investment and trade; education, health and sports; financial services and professional personnel exchanges. The relevant departments of both sides would continue to liaise and follow up on the implementation of the co-operation initiatives.

### **Previous discussions**

14. Members have followed closely issues relating to Mainland/Hong Kong co-operation and the various initiatives that foster trade relations between the two places. They are keen to ensure that such initiatives can provide a window of opportunities for Hong Kong businesses to gain greater access to the Mainland market and create a genuine positive impact on Hong Kong's economic development.

### Council meetings

15. At a number of Council meetings, Members raised questions on the implementation of CEPA, Certificates of Origin under CEPA, market entry facilitation measures to assist businessmen/professionals in grasping the opportunities brought about by CEPA, measures to deepen trade co-operation and foster closer economic integration between Hong Kong and the Mainland, business opportunities on the Mainland for local professionals and service sectors, enhancing co-operation between services industries in the PRD Region and Hong Kong, developing Mainland market for Hong Kong products, providing assistance to Hong Kong courier companies operating on

the Mainland, and the Overall Development Plan on Hong Kong/Shenzhen Co-operation on Modern Service Industries in Qianhai Area.

16. Two motions on CEPA and the implementation of the Framework Agreement were carried at the Council meetings on 4 March 2009 and 26 May 2010 respectively. During the motion debates, Members generally expressed support for the implementation of CEPA and the Framework Agreement. They urged the Administration to formulate appropriate measures to improve the business environment and facilitate local enterprises to make the best use of the business opportunities brought about by such initiatives, thereby creating more employment opportunities and improving Hong Kong's economy in the long run. The Administration was also asked to formulate and implement the specific policies and measures outlined in the Framework Agreement as early as possible.

17. At the Council meetings on 30 March and 4 May 2011, two motions on "Implementing the Twelfth Five-Year Plan" and "Promoting regional economic integration between Guangdong and Hong Kong" were carried respectively. Members urged the HKSARG to seize the golden opportunity presented by the National 12th Five-Year Plan, intensify the co-operation between Hong Kong and the Mainland, and adopt a forward-looking attitude in formulating policies and measures which were conducive to promoting the development of Hong Kong and the Mainland, in particular Guangdong.

#### House Committee special meetings

18. At the special meeting of the House Committee (HC) on 7 January 2010, CS briefed Members on major co-operation initiatives in relation to Hong Kong/Guangdong economic co-operation, including fostering flow of key economic factors such as people, goods, information and capital, assisting Hong Kong enterprises to restructure, upgrade and develop the Mainland domestic market. Members urged the Administration to co-operate with the Mainland, in particular Guangdong in developing the six priority industries (namely educational services, medical services, testing and certification, innovation and technology, cultural and creative industries, and environmental industry).

19. At the special HC meeting on 14 May 2010, CS briefed Members on the details of the Framework Agreement. Members welcomed the policies, measures and items set out in the Framework Agreement, which would facilitate complementarities between the two places and enhance the core competitiveness of the whole region.

20. At the special HC meetings on 20 May and 11 November 2011, CS briefed Members on the latest progress of the work of HKSAR in

complementing the National 12th Five-Year Plan. Members noted that the Dedicated Chapter and the announcement of the New Supporting Policies and Measures signified a landmark progress in the HKSAR's work on economic and trade, finance, society and people's livelihood, tourism and co-operation between Guangdong and Hong Kong. The HKSARG would continue to liaise with the relevant ministries of CPG and the provincial and municipal governments to implement the various supporting policies and measures of CPG.

### Discussions at the Panel on Commerce and Industry

#### *Supplement VII to CEPA*

21. At the meeting of the Panel on Commerce and Industry (the Panel) held on 15 June 2010, members noted that Supplement VII to CEPA provided for 35 market liberalization and trade and investment facilitation measures in 19 sectors. Among them, 27 were liberalization measures in 14 service sectors and of which eight were measures for "early and pilot implementation". As a result, the service sectors covered by liberalization of trade in services under CEPA would expand from 42 to 44. Details of Supplement VII are set out in the Administration's paper issued vide LC Paper No. CB(1)2065/09-10(01).

22. Panel members welcomed the signing of Supplement VII to CEPA. However, they expressed concern that the service industry was still being confronted with various barriers of entry to the Mainland market with the associated access restrictions. Members urged the Administration to introduce more liberalization and facilitation measures by improving and streamlining the relevant rules and procedures, so as to facilitate local enterprises to access the Mainland markets and their subsequent operation in the Mainland.

#### *Mainland/Hong Kong technology co-operation*

23. At the Panel meetings held on 16 March, 15 June 2010 and 18 January 2011, members discussed issues related to the technology co-operation between the Mainland and Hong Kong. Panel members noted that the Mainland would assist Hong Kong's testing laboratories to be recognized under the international multilateral systems on mutual recognition of testing and certification that were open to national member bodies. Members also noted that the Innovation and Technology Commission and the Tsinghua University in Beijing had entered into a co-operation agreement in 2006. Research institutes in Hong Kong had carried out a number of exchange activities with the Tsinghua University and discussed co-operation projects on applied technology. In addition, several universities in Hong

Kong had secured the agreement of the Ministry of Science and Technology to set up Partner State Key Laboratories (SKLs) in Hong Kong with the relevant SKLs in the Mainland to carry out innovative research in technology areas.

24. Some Panel members opined that the Administration should seek closer co-operation with the Guangdong authorities in sectors in which Guangdong excelled such as biotechnology, pharmaceuticals and information technology. The Administration advised that the Shenzhen-Hong Kong Innovation Circle had been established to reinforce technological co-operation with the Mainland. The HKSARG would continue to step up effort in this respect.

*Hong Kong/Shenzhen and Hong Kong/Beijing economic and trade co-operation*

25. At the Panel meeting held on 15 February 2011, members were briefed on the gist of the Hong Kong/Shenzhen Co-operation Meeting in relation to commerce and industry between the two places, including the Overall Development Plan on Hong Kong/Shenzhen Co-operation on Modern Service Industries in Qianhai Area (Qianhai Development Plan), and the gist of the Third Plenary Session of the Hong Kong/Beijing Economic and Trade Co-operation Conference in relation to commerce and industry between the two places.

26. Some Panel members opined that Hong Kong enterprises should make the best use of the opportunities brought about by the mutual co-operation in modern service industries in Qianhai. On technology co-operation between Hong Kong and Shenzhen, some Panel members urged the Administration to encourage and assist high-tech enterprises in Shenzhen to set up their operations in Hong Kong, thereby promoting technological development, creating more job opportunities and improving Hong Kong's economy in the long run. The Administration advised that in December 2010, the Shenzhen Municipal Government had invited 20 research and development institutes and promotional organizations in Hong Kong to participate in the Qianhai development plan. The Administration would update the Panel on the latest development of the matter in due course.

27. Some Panel members commented that Hong Kong failed to make the best use of the opportunities brought about by CEPA. They urged the Administration to be more proactive in formulating concrete measures to attract and assist overseas enterprises of internationally renowned goods to set up operations for post-processing arrangement in Hong Kong, so as to gain access to the Mainland market by taking advantage of the tariff concessions applicable to Hong Kong products under CEPA, thereby creating

more employment opportunities for the local workforce.

*Hong Kong/Guangdong economic and trade co-operation*

28. At the Panel meeting held on 15 March 2011, members were briefed on matters relating to commerce and industry discussed at the 16th Working Meeting of the Hong Kong/Guangdong Co-operation Joint Conference (Working Meeting) held on 28 February 2011 in Guangzhou. Panel members noted that many Hong Kong enterprises in Guangdong which had restructured into import processing operations were plagued by the taxation problem when struggling to establish their brands in the Mainland domestic market. These enterprises were also unable to claim the depreciation allowances in respect of their machinery or plants used in import processing operations in the Mainland. To address these concerns, some Panel members urged the Administration to provide assistance to these enterprises, in particular those with an intention to switch back to the processing trade.

29. Panel members also noted that in complementing the National 12th Five-Year Plan, the HKSARG would proactively liaise with the CPG ministries to secure their support to take forward the relevant work further. This included continuous implementation of CEPA, opening up of the Guangdong market under "early and pilot measures" to Hong Kong's service industries, and gradual extension of such measures to other regions. Some Panel members expressed concern whether the HKSARG, upon the new round of consultation with the Mainland authorities, had proposed further liberalization measures following the implementation of the Supplement VII to CEPA. The Administration assured the Panel that it would continue to discuss with the Mainland authorities, so as to review the implementation of current measures and to broaden and enrich the scope of CEPA and its supplements through continuous liberalization in a gradual and orderly manner.

**Recent developments**

30. On 13 December 2011, the HKSARG and CPG signed the Supplement VIII to CEPA. Supplement VIII to CEPA provides for a total of 32 services liberalization and trade and investment facilitation measures, including 23 liberalization measures in 16 service sectors, and strengthens co-operation in areas such as finance, tourism, innovation and technology. Both sides also agreed to enhance the origin criteria under trade in goods, and relax the definition and related requirements of "Hong Kong service supplier". Among the 32 measures, 15 are related to the implementation of measures announced by Vice-Premier LI Keqiang during his visit to Hong Kong in August 2011.

31. On 5 January 2012, the Second Plenary Session of the Hong Kong/Shanghai Economic and Trade Co-operation Conference was held in Shanghai. The two sides reached consensus on nine areas of co-operation, namely commerce, trade and investment; financial services; civil aviation, maritime transport and logistics; tourism, convention and exhibition industries; innovation and technology; cultural and creative industries and sports; exchange of professionals; education, medical and health care; and youth and social development. The Governments and relevant authorities of the two places also signed four co-operation agreements, including the Agreement on Strengthening Commerce and Trade Co-operation.

32. On 9 January 2012, the 17th Working Meeting of HKGDCJC was held in Hong Kong. The two sides reviewed the progress of implementation of the 2011 Work Plan of the Framework Agreement and drew up the 2012 Work Plan with a proactive and pragmatic approach. In response to the call to strengthen Hong Kong/Guangdong co-operation set out in the National 12th Five-Year Plan, a total of 86 specific action items had been included in the 2012 Work Plan. On commerce and trade, the Guangdong Province would continue to implement CEPA and the various early and pilot measures to open up its service industries for Hong Kong. The Guangdong side would strive for the early promulgation of the implementation details for all relevant measures to be taken forward in Guangdong in respect of Supplement VIII to CEPA. The HKSARG would continue to co-operate closely with the Guangdong Province to step up the promotion of CEPA and follow up on any problems encountered in the process.

### **Latest Position**

33. The Administration will update the Panel on 17 January 2012 on the latest development of the economic and trade co-operation and exchanges between the HKSARG and CPG under CEPA.
