Dear Ms. Nien,

Panel on Economic Development
Follow-up to meeting on 13 December 2011

We refer to the captioned fax ref. CB1/PL/EDEV of 14 December 2011.

As requested we enclose a comparison table for the HK Electric's Maximum Demand Tariff against the bulk tariffs of Japan, Singapore, Korea and Taiwan. Since there are few industrial undertakings on HK Island and they account for less than 3% of HK Electric's sales. Most of our Maximum Demand Tariff customers are commercial or institutional ones. Their operations are primarily in normal business days and hours. Thus, the above-mentioned comparison table is a like-to-like comparison rather than a full range comparison.

Yours sincerely,

C.T. Wan
DIRECTOR OF ENGINEERING
(PLANNING & DEVELOPMENT)

註：

1. 比較基於商業用電模式(例如：寫字樓、銀行及酒樓)。
2. 基於可與香港供電電壓(380伏至 11,000伏特)比較的最高負荷電價。
3. 以上均以 2011 年 11 月 30 日有效的電費價目表作比較。
4. 採用刊載於香港金融管理局網頁 2011 年 11 月 30 日的外幣對換率將相關電價轉換至港幣。
5. 以上電價已包括銷售稅及其他徵費(如適用)。

Remarks:

1. Comparison is based on commercial electricity consumption pattern (e.g. offices, banks and restaurants).
2. Based on maximum demand tariffs for voltage levels comparable to those in Hong Kong (380V to 11,000V).
3. All the tariff plans used for the comparison above are those in place as at 30 November 2011.
4. Tariff conversion to HK dollar is based on the foreign exchange rates (as at 30 November 2011) published the Hong Kong Monetary Authority's website.
5. Above tariffs include VAT and other levies where applicable.
