5. Review on regulation of person-to-person telemarketing calls

At the Panel meeting on 9 November 2009, the Administration briefed members on the findings of the two opinion surveys commissioned by the former OFTA in respect of person-to-person (P2P) telemarketing calls and the actions to be taken in the light of the information collected from the surveys. Some members doubted whether voluntary self-regulation by the industry by way of the Code of Practice (CoP) would be effective in tackling the problems caused by P2P telemarketing calls and considered it necessary to introduce legislation to regulate such calls.

To be confirmed

After consultation with the industry, the former OFTA issued a benchmark CoP with guidelines requesting telemarketers to disclose identity and calling line identification information when making such calls. Telemarketers are also requested to maintain an in-house unsubscribe list for the public to make unsubscribe request.

According to the Administration, industry associations of four business sectors, namely finance, insurance, telecommunications service and call centre, have pledged support for the voluntary self-regulation scheme. The industry associations of insurance companies, banks, restricted licence banks and deposit-taking companies, three major telecommunications operators, two telemarketing industry associations, and a major telecommunications industry association have implemented their own CoP. The Administration will update the Panel on the progress of the implementation of the voluntary CoP after it has operated for some time.

6. Mobile data charges

In view of the increasing public concern about the rising problem of exorbitant mobile data charges, and the cap on mobile data charges that came into force recently in the European Union to protect consumers from "bill shock", members suggested that a Panel meeting should be held with the Administration to discuss the matter with a view to drawing up a long-term policy and time-table to regulate mobile data charges. At the Panel's request, the Research Division undertook to provide an information note on the preventive measures of mobile bill shock
