1. HK is quite small city that it can't tolerate so many people even cars as there are traffic jammed all the time especially the pollution that it hazards our health and environment.
2. Contaminations caused by mainland cars' petrol that HK relevant department is hard to check frequently.
3. Most mainland drivers are bad in driving attitude and without discipline where I saw in mainland.
4. Their driving records are not sure correctly because they can pay corruptible as this is their habit.

From these points on as above mentioned I strongly suggest to cease such plan of mainland cars driving into HK.
