http://www.legco.gov.hk/general/chinese/sec/invite_s/tp20120217.htm

Dear Sirs and Madams

My oppositions to the cross-boundary-private-cars-trial-scheme as below:-

1. Hong Kong's traffic is very pack and busy already, there would be no more extra room for another 82 thousand cars from Mainland daily.
2. Our government always labels Hong Kong as an international metropolitan, with the present smog level in the city and the would be high pollution from those cross-border cars, could we still claim Hong Kong a suitable place for doing business and travelings?
3. There would be more citizens getting sick or even killed from the air pollution. It would be a big burden on the already deteriorating medical systems here.
4. From the news on TV and newspapers, we understand that the driving habits of our counterpart is much aggressive than the Hong Kong drivers. Due to the different traffic systems and unfamiliar road maps to the mainland drivers, there would be more potential traffic accidents. It will not be safe anymore to cross the roads for daily errands or go to work.

This cross-the-border-scheme is a short sighted one, for the benefits of our citizens and the government, please pull the whole scheme off completely.

Thank you for your time.

Sincerely,
Lan Yuan
