Subject: HK as a bilingual city, standard of translation and press reporting.

History: ➔ This message has been forwarded.

I am delighted John Tsang has clarified today the fact although he is a serious person and handles matters seriously,
that does not mean he said the matter was serious pursuant to 37 of Johnson statement and the translation into Chinese by HK press.
HK is a bilingual city which is unique for us to remain competitive amongst all chinese cities !

Subject: West Kowloon Legco P&P inquiry involving C.Y.Leung To whom it may concern.

I find it interesting legco select committee panel members including Chinese media reported the meeting yesterday, the facts are before you by reference to the following statement.
Wonder those involved ever read through these documents in English to make comments ?

Statement by Mr. Eric Andrew Johnson, competition co-ordinator.

37. I cannot recall what exactly was Mr. Tsang said at the time, but he treated the matter as serious and if I recall correctly, tried to reach Mr. Leung by phone---
39. Ten years on, I cannot recall exactly what was said in the meeting
43. I cannot recall I informed the S for P & L---

There are at least three times Johnson cannot recall what exactly he said as a full time co-ordinator of HKSARG.
