The suffering by the CBS members:

Why in all the written records of the early 50's, dealing with cooperatives, there had no clear reference to what Government intended to do after the 20 year period ?

Since 1980 up to present, the CBS members had been suffering due to the Government's unreasonable, unlawful, unfair and unacceptable restrictions.

After 20 years, the loan with interest was fully repaid and all the conditions laid down by the Government had been carried out and "Part Performance" (law) was completed by the CBS members.

In 1994, a professional lawyer, represented the CBS members, had presented the case to Court. But in 1996, the said case was dismissed unconditionally and paid \$130,000.00 to the Government by the plaintiffs. What do you know ?

How the Government should be punished for such wrong doings to those Government servants (CBS members) who had been working so hard to bring Hong Kong famous in the world .

The Government should pay back everything including large sum of money to those CBS sponors who had been suffering too much !
