Dear Ms Lam,

I write to express my views on captioned proposed amendment to animal trader regulations.

I support the amendments but the following needs to be strengthened:

1. More stringent control on breeder license. For home breeders, the max. female bitches for breeding should be limited to no more than 2. Over 2 bitches the home breeder is doing it for trade.
2. Heavy punishment on violation. License to be revoked and punitive fines. Puppies are sold at pet shops for over \$6,000 to \$15,000 each. Fines of \$1,000 to \$2,000 is not a deterrent at all.
3. Strengthen enforcement on breeders and pet shops. These people make money on the trade without regard of the law and life of the pets. There must be stronger enforcement, otherwise they continue to ignore and breach the law.

Hope you can pass on my views and help make HK a better place for our animal. friends.

Thank you for your kind attention.

Freda
