Public Accounts Committee

Provision of aquatic recreational and sports facilities

According to the Government Minute in response to the Public Accounts Committee ("PAC") Report No. 57 which was laid in the Legislative Council (LegCo) in May 2012, the Leisure and Cultural Services Department ("LCSD") was reviewing the fee structure and fee levels of different types of recreation and sports facilities. As part of the exercise, the LCSD would also examine all the fees for recreation and sports programmes it organized, and assess the financial implications of changing or aligning the fees. Upon completion of the review, the LCSD would formulate proposals for consultation with the LegCo, District Councils and relevant stakeholders.

2. As the policy issues concerning the fee structures and fee levels of recreation and sports facilities are within the purview of the Panel on Home Affairs, the PAC has agreed to refer the subject to the Panel for follow-up.
