Subject: Issues relating to the discontinuation of broadcasting service by Digital Broadcasting Corporation Hong Kong Limited

To whom it may concern

I urge the government to seriously investigate the incident of DBC which ceased its operation abnormally. Here below are the reasons.

1. The political interference (The Liaison Office of China influenced some shareholders of DBC and caused them to break their promise in financing DBC (as planned) hence stopped its broadcasting as a result) had been brought up and seemed very probable;
2. The government has the obligation to insure the public interest in receiving DBC's radio programmes; and
3. DBC ceased operation is very unfavourable to the government policy in promoting Digital Broadcasting.
