Panel on Public Service

Motion passed under agenda item V "An overview of medical and dental benefits for civil servants, pensioners and eligible dependants" at the meeting on 17 February 2014

"That this Panel urges the Government to honour its commitment by providing civil servants with reasonable medical services, including: (1) enhancing the quality of the existing medical services such as providing more families clinics and shortening the waiting time for specialist services; (2) immediately reviewing the unreasonable policy of not including Chinese medicine service in the scope of civil service medical benefits and considering providing Chinese medicine service in families clinics first; (3) providing serving non-civil service contract ("NCSC") staff with the same medical benefits as those for civil servants; (4) reviewing the post-retirement medical protection for civil servants who were appointed in and after 2000, and those NCSC staff who have been employed for a long time."
