**Motion on  
“Formulating a medical policy to  
support ethnic minority elderly people”  
to be moved by Prof Hon Joseph LEE  
at the Council meeting of 27 November 2013**

**Wording of the Motion**

That Hong Kong’s ethnic minority population continues to increase, but due to differences in culture and lifestyle, ethnic minorities, especially elderly people, may have physical and psychological health problems; ethnic minority elderly people are generally unable to have access to clear healthcare information because of language problems, resulting in their being unable to properly prevent diseases and seek treatment for illnesses; in this connection, this Council urges the Administration to formulate a medical policy to support ethnic minority elderly people to protect their health.
