12 September 2014

Ms Annette Lam
Clerk to Panel
Legislative Council Panel on Commerce and Industry
Legislative Council Complex
1 Legislative Council Road
Central, Hong Kong

Dear Ms Lam,

**Supplementary Information on the Contract Manufacturing Services of
the Hong Kong Institute of Biotechnology (HKIB)**

I refer to Dr Hon Ann Chiang's enquiry under the agenda item "Research and Development of Chinese Medicines" at the Panel meeting on 17 June 2014 on the number of proprietary Chinese medicines (pCm) products produced by HKIB under the contract manufacturing services for Members' reference.

As of June 2014, HKIB has produced 42 pCm products under its contract manufacturing services. These products include Rhodiola (紅景天), Cistanche (肉蓯蓉), Polygoni multiflori (制首烏), Yunzhi (雲芝), Lingzhi (靈芝), Lingzhi cracked spores (靈芝破壁孢子), Cordyceps (蟲草), Cordyceps mycelium (蟲草菌絲體), American Ginseng pills (花旗參丸), Ginseng pills (人參丸), liver care formula (補肝配方), nasal formula (鼻敏感配方), etc.

I should be grateful if you would relay our response to Panel Members.

Yours sincerely,

(Theobald Chan)
for Commissioner for Innovation and Technology
