30 January 2015

Clerk to Panel on Education
Legislative Council
Legislative Council Complex
1 Legislative Council Road
Central, Hong Kong
(Attn: Miss Polly YEUNG)

Dear Miss Yeung,

**Legislative Council Panel on Education
Follow-up to meeting on 16 July 2014**

At the meeting of the Legislative Council Panel on Education (Panel) on 16 July 2014, the Chairman requested the Education Bureau (EDB) to provide further information on the liaison between local secondary schools and Mainland higher education institutions participating in the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme). Our response is set out below.

Launched in the 2012/13 academic year, the Admission Scheme provides an alternative pathway for Hong Kong students to pursue further studies in the Mainland. The liaison between local secondary schools and Mainland higher education institutions participating in the Admission Scheme is established and maintained mainly through the following channels:

(a) Mainland Higher Education Expo

To help local secondary schools, students and parents understand better the details and arrangements of the Admission Scheme, the EDB and the Ministry of Education jointly organised the Mainland Higher Education Expos in Hong Kong annually over the past four years (from 2011 to 2014) to inform teachers, students and parents of the particulars of the Admission Scheme and latest development on further studies in the Mainland. At the Expos, Mainland institutions participating in the Admission Scheme set up exhibition booths and held talks to disseminate information on their institutions and

disciplines, admission requirements, number of student places, tuition fees, etc. There were also thematic sharing sessions for representatives of the institutions to brief teachers, students and parents on the characteristics of individual specialised programmes and employment prospects of graduates. The Mainland Higher Education Expos attracted a large number of teachers, students and parents over the years. A total of 78 Mainland institutions (see List of Participating Institutions at Annex) participated in the 2014 Mainland Higher Education Expo held on 1 and 2 November last year, with a record number of nearly 9 000 visitors.

(b) Study Tours to Mainland Institutions for Secondary School Principals and Teachers

To enable local secondary schools and students to know more about the teaching quality, discipline features and developments of Mainland institutions, the relevant organisations assisting in the implementation of the Admission Scheme (relevant organisations) (including the China Education Exchange (Hong Kong) Centre, Hok Yau Club and other supporting groups/organisations such as school heads associations and schools councils) help secondary school principals and career guidance teachers organise study tours to visit the institutions participating in the Admission Scheme. There have been eight study tours of this nature so far, with nearly 30 Mainland institutions (in terms of individual tours) visited by more than 160 secondary school principals and teachers.

(c) Mainland Study Tours and Experience Camps for Secondary School Students

The relevant organisations also help local secondary school students organise study trips and tours to visit Mainland institutions which are of interest to them. There have been about 30 study tours of this nature so far, with more than 20 Mainland institutions (in terms of individual tours) visited by more than 1 200 students.

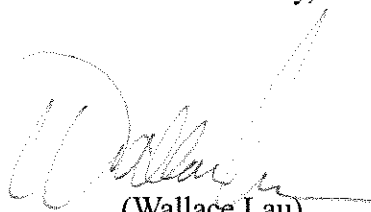

Besides, the relevant organisations help individual Mainland institutions organise experience camps for Hong Kong students to deepen their knowledge and understanding of the institutions.

(d) Visits of Mainland Institution Representatives to Local Secondary Schools

The relevant organisations also assist in making arrangements for representatives of individual Mainland institutions to visit local secondary schools and attend student forums to brief students on the characteristics of their institutions, particulars of various disciplines, admission requirements, number of student places, tuition fees, etc.

We will continue to publicise the Admission Scheme and promote it to local secondary schools, students and parents through the above-mentioned and other appropriate channels, so that they will have more comprehensive knowledge and understanding of the details of the Admission Scheme as well as the latest development on further studies in the Mainland.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Wallace Lau', with a horizontal line extending to the right from the end of the signature.

(Wallace Lau)

for Secretary for Education
