Subject: A Complaint of the Lack of Transparency and Conflicts of Interests

History: [▶](#) This message has been forwarded.

Dear Dr. LEUNG Ka-lau,

Thank you. Appreciate if you could advise whether the Panel on Health Services can help with the followings:

1. Short-term - Make an inquiry to Medical Council on how they handle cases if the doctors being complained have potential conflicts of interests with the PIC members and members of the Medical Council; whether the complainant can request the case be handled by members who do not have conflicts of interests and if so, how to proceed.
2. Mid to Long-term - Bring the issue described in my previous letter (the loophole in the system which could not be helped by the existing legal system, as described in my letter) to the Panel meetings and/or LegCo meetings so some law or ordinance can be set up, and a government unit can be assigned with limited jurisdiction over Medical Council on obvious administrative issues, and specific guidelines can be given to Medical Council to request them to follow (and made these guidelines available to HK residences so we know our rights).
3. I was advised to wait for the reply from the Panel on Health Services, as this is the proper forum for handling this issue. Therefore, I put my complaint with the LegCo Complaint Office on hold.

Look forward to hearing from you.

Regards,
