At the Panel meeting on 9 November 2009, the Administration briefed members on the findings of the two opinion surveys commissioned by the former OFTA in respect of person-to-person ("P2P") telemarketing calls and the actions to be taken in the light of the information collected from the surveys. Some members doubted whether voluntary self-regulation by the industry by way of the Code of Practice ("CoP") would be effective in tackling the problems caused by P2P telemarketing calls and considered it necessary to introduce legislation to regulate such calls. After consultation with the industry, the former OFTA issued a benchmark CoP with guidelines requesting telemarketers to disclose identity and calling line identification information when making such calls. Telemarketers are also requested to maintain an in-house unsubscribe list for the public to make unsubscribe request.

According to the Administration, industry associations of four business sectors, namely finance, insurance, telecommunications service and call centre, have pledged support for the voluntary self-regulation scheme. The industry associations of insurance companies, banks, restricted licence banks and deposit-taking companies, all major telecommunications operators, two telemarketing industry associations, and a major telecommunications industry association have implemented their own CoP. The Administration will update the Panel on the progress of the implementation of the voluntary CoP after it has operated for some time.

11. Review of the Broadcasting Ordinance and the Telecommunications Ordinance

During the deliberation of the Bills Committee on Communications Authority Bill, the Administration advised that a staged approach would be adopted in modernizing the regulatory regime for the broadcasting and telecommunications sectors. The Administration would first establish CA through the structural merger of the former Telecommunications Authority ("TA") and the Broadcasting Authority ("BA") to enable CA to deal with increasing market convergence as soon as possible. Upon establishment, CA would take over the existing functions of the TA and the BA under the Telecommunications Ordinance ("TO"), the Broadcasting Ordinance ("BO") and other relevant ordinances applicable to the broadcasting and telecommunications sectors. The Administration and CA would then carry out a review of the existing regulatory regimes and introduce legislative changes to update and rationalize the TO and the BO.
