8. Review of the Broadcasting Ordinance and the Telecommunications Ordinance

During the deliberation of the Bills Committee on Communications Authority Bill, the Administration advised that a staged approach would be adopted in modernizing the regulatory regime for the broadcasting and telecommunications sectors. The Administration would first establish the Communications Authority ("CA") through the structural merger of the former Telecommunications Authority ("TA") and the Broadcasting Authority ("BA") to enable the CA to deal with increasing market convergence as soon as possible. Upon establishment, the CA would take over the existing functions of the TA and the BA under the Telecommunications Ordinance ("TO"), the Broadcasting Ordinance ("BO") and other relevant ordinances applicable to the broadcasting and telecommunications sectors. The Administration and the CA would then carry out a review of the existing regulatory regimes and introduce legislative changes to update and rationalize the TO and the BO.
