Dear Sir/Madam,

Re: Supplementary information to the Submission to The Legislative Council of The Hong Kong Special Administrative Region Panel on Transport dated March 31, 2015

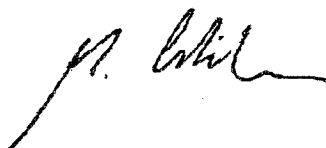

Pursuant to the paper dated March 31, 2015 that The ISF Academy submitted on the "Public Transport Strategy Study - Non-franchised bus services", I write to provide more supplementary, clarifying information.

Since the founding of The ISF Academy in 2003, our school bus service provider has been providing school bus services to our students. The service that the school receives has been trustworthy and reliable over this time. We appreciate the generosity and support of the bus company since we started working together so many years ago. The sole purpose in submitting the said paper was to appeal to the Government to relax the quota governing the number of school buses available to the school communities in Hong Kong.

We appreciate that all prices quoted in the submitted paper were offered to The ISF Academy as concessions, arising from the long-term relationship between the service provider and the Academy.

We regret any dissatisfaction and misunderstanding this submission may have caused for our service provider. With the anticipated increase in the student number for the Academy, our intention was to increase business with them, not reduce it. We wish to make this supplementary statement in advance of any incorrect reporting that may arise from the panel's consideration of the earlier submission, and would appreciate if you could distribute this letter to the panel at or before its meeting today.

Thank you for your attention and follow-up action,

Dr. Malcolm Pritchard  
Head of School
