24 May 2016

Mr Raymond SZETO
Legislative Council Secretariat,
Legislative Council Complex,
1 Legislative Council Road,
Central, Hong Kong

Dear Mr SZETO,

**Information Requested by the Finance Committee
on 13 May 2016**

At the meeting of the Finance Committee on 13 May 2016, the Administration undertook to follow up Members' request for the following supplementary information:

- (a) the Administration's position on the installation of Wi-Fi services for the seven parks still without Wi-Fi connectivity under the purview of the Leisure and Cultural Services Department; and
- (b) The coverage of Wi-Fi.HK across the territory to be presented in the form of a map.

The required information is provided below for Members' reference.

- (a) When implementing the Wi-Fi Connected City programme, we will open up government venues (including parks, sitting-out areas and promenades, etc.) under a public-private collaboration model to provide sustainable free public Wi-Fi services. Regarding those parks not yet provided with Wi-Fi services mentioned in the meeting, we will include them in the Wi-Fi Connected City programme to provide public Wi-Fi services under the public-private collaboration model. For those venues that are not attractive to the private sector for public-private collaboration but with keen public demand for free Wi-Fi services, we will consider providing the services through government funding.
- (b) The coverage of Wi-Fi.HK across the territory is provided at the **Annex**. For details of the latest location and distribution of hotspots, please visit the Wi-Fi.HK website at <http://www.wi-fi.hk/> or download the Wi-Fi.HK mobile app.

Yours sincerely,

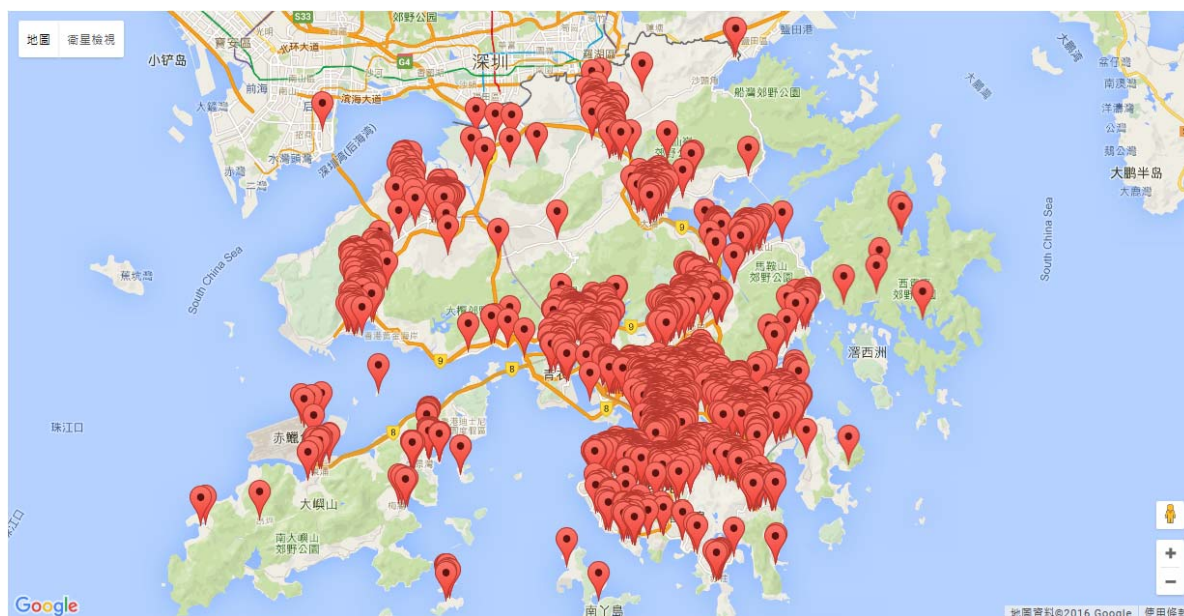

(Alex YEUNG)

for Government Chief Information Officer

Encl.

Coverage of Wi-Fi.HK across the territory

As at April 2016, there were 17 478 hotspots installed under Wi-Fi.HK in Hong Kong. The distribution of hotspots is shown in the map below:

The distribution of hotspots by 18 districts is listed in the table below:

District	Number of hotspots
