**I. Meeting with deputations and the Administration**

The Subcommittee deliberated (index of proceedings attached at **Annex A**).

Action

Admin

2. The Subcommittee received oral representations from 42 deputations/individuals on the Public Health (Animals and Birds) (Animal Traders) (Amendment) Regulation 2016 ("the Amendment Regulation") and the Specification of Public Offices (Amendment) Notice 2016 ("the Amendment Notice"). The Administration was requested to provide written response to views expressed/suggestions made by deputations as set out in **Annex B**.

*(Post-meeting note: The Administration's response was issued to members vide LC Paper No. CB(2)1867/15-16(02) on 5 July 2016.)*

**II. Meeting with the Administration**

[File Ref: FH CR 3/3231/07, L.N. 64 of 2016, L.N. 68 of 2016, LC Paper Nos. CB(2)1707/15-16(01) & (02), CB(2)1733/15-16(01) & (02) and CB(2)1645/15-16(02)]

3. Members noted Ms Claudia MO's intention to amend the Amendment Regulation to the effect that a premises licensed under an Animal Trader Licence, a dog breeder licence (category A) and a dog breeder licence (category B) should have a minimum gross floor area of 2 000 square feet; or to repeal the two items of subsidiary legislation.

4. The Subcommittee completed the scrutiny of the Amendment Regulation and the Amendment Notice. The Subcommittee Chairman would report the deliberations of the Subcommittee to the House Committee on 24 June 2016.

**III. Any other business**

5. There being no other business, the meeting ended at 7:45 pm.

010556 - 011102	Deputy Chairman Admin	<p>The Administration's response to deputations' views:</p> <p>(a) the enhanced regulatory regime sought to put dog breeding activities under licensing control. Holders of a dog breeder licence (category A) ("DBLA") and a dog breeder licence (category B) ("DBLB") had to observe the licence conditions attached to their licences and abide by the respective Code of Practice ("CoPs") which set out the required "duty of care" standards and other requirements, including general standards for the licensed premises and enclosures for individual dogs. As these new measures would increase the compliance cost to be borne by prospective dogs breeders, the Administration did not expect that the introduction of the two-tier licensing regime would lead to a significant increase in hobby-breeding activities;</p> <p>(b) if there was evidence to indicate that any breach of the relevant provisions in the relevant deeds of mutual covenant might render the premises concerned less than suitable to be used for dog breeding activity or adversely affect compliance with the relevant requirements, depending on the circumstances of the particular case, it might be one of the relevant factors for the Director of Agriculture, Fisheries and Conservation ("DAFC") to take into account when considering whether or not to grant (or renew) the licence;</p> <p>(c) to cope with the anticipated increase in workload, through the provision of seven additional permanent civil service posts and redeployment of staff currently engaged in duties related to the Public Health (Animals and Birds) (Animal Traders) Regulations</p>	

Time marker	Speaker	Subject(s)/Discussion	Action Required
		<p>(Cap. 139B), the Agriculture, Fisheries and Conservation Department ("AFCD") anticipated that there would be some 30 officers deployed to discharge duties in relation to the licensing of animal trading activities and enhancing the relevant control measures after commencement of the Public Health (Animals and Birds) (Animal Traders) (Amendment) Regulation 2016 ("the Amendment Regulation"); and</p> <p>(d) the Government would, two years after the coming into being of the new licensing regime, report to the Panel on Food Safety and Environmental Hygiene on progress made in implementing the Amendment Regulation.</p>	
011103 - 011555	Deputy Chairman Mr Gary FAN Mr CHAN Chi-chuen Admin	<p>In response to Mr Gary FAN's enquiry on whether the Administration would work towards the objective of attaining "zero trading" of animals, the Administration advised that it would continue to step up its efforts in promoting animal adoption and to implement measures to enhance animal welfare.</p> <p>Mr Gary FAN and Mr CHAN Chi-chuen asked about AFCD's strategy in conducting inspections on licensed premises of hobby-breeders, which in most cases were situated in residential buildings. Mr CHAN also enquired whether AFCD would conduct surprise inspections on licensed premises, particularly those situated in residential buildings. The Administration advised that in addition to arranging inspections by appointment, AFCD would conduct surprise inspections to enhance enforcement if necessary.</p>

**Subcommittee on Public Health (Animals and Birds) (Animal Traders) (Amendment) Regulation 2016  
and Specification of Public Offices (Amendment) Notice 2016**

**Summary of views expressed/suggestions made by deputations/individuals at the meeting on 14 June 2016**

	<b>Major views expressed/suggestions made</b>	<b>Administration's response</b>
(1)	The Public Health (Animals and Birds) (Animal Traders) (Amendment) Regulation 2016 would produce an unintended effect of legalizing private breeding of dogs. If regulatory control over dog breeding activities was considered necessary, the Administration should introduce a single-tier licensing regime for dog breeders and subject all licensees to the more stringent Dog Breeder Licence Category B for more effective enforcement of the amended Public Health (Animals and Birds) (Animal Traders) Regulations (Cap. 139B) and better protection of animal welfare.	
(2)	The Administration should raise the threshold for the granting and renewal of dog breeder licences and put a cap on each type of licence to be issued under the new licensing regime.	
(3)	The Administration should set out more stringent requirements in the Codes of Practice for licensed animal traders and dog breeders as part of the licence conditions, so as to safeguard animal welfare.	
(4)	The Administration should require dog breeders to attend compulsory training to equip themselves with the necessary knowledge and skills for dog breeding. Licensees and their staff (if any) should pass the relevant examination after completion of the training programmes.	

	<b>Major views expressed/suggestions made</b>	<b>Administration's response</b>
(5)	The Administration should allocate adequate resources and manpower for enforcing the enhanced regulatory regime, in particular conducting inspections on licensed animal traders/dog breeders from time to time for compliance check.	
(6)	The Administration should take into account the terms and conditions in land leases and deeds of mutual covenant of a building in determining whether or not to grant/renew a dog breeder licence. To avoid nuisance caused to neighbouring residents and to protect dogs from a poor breeding environment, the Administration should consider prohibiting breeding activities at residential buildings.	
(7)	The Administration should exercise due care in considering exemption for animal welfare organizations from the requirement to obtain an Animal Trader Licence, so as to prevent illegal pet trading activities conducted by commercial breeders who operate under the disguise of animal welfare organizations.	
(8)	The Administration should consider extending the licensing system to cats and other pet animals.	
(9)	The Administration should make reference to animal protection legislation in developed countries/places and provide a timetable for reviewing the new licensing regime after its implementation.	
(10)	The Administration should work towards the objective of achieving "zero pet trading" and consider imposing a total ban on animal trading and breeding in future. The Administration should also	

	<b>Major views expressed/suggestions made</b>	<b>Administration's response</b>
	promote adoption of animals to reduce the number of animal trading.	
(11)	The Administration should set up a dedicated bureau/department to formulate policies on animal welfare and oversee the regulation of animal trading and related business.
