Subject: Proposed Development Strategy for Lantau - Reply Slip
(See attached file: Reply Slip.pdf)

Dear Christina,

Good afternoon.

As a Tung Chung resident, I fully support the development of Lantau Island.

I heard voices from local residents and I am pleased to submit the following proposals regarding the special meeting on 16 April 2016.

1. Social Development -- Social sustainability within Tung Chung -- create more job opportunities in Tung Chung for population in different age range, e.g. expedite commercial building construction in Northern Lantau, Airport Island and encourage SME.

2. Strategic Traffic and Transport Infrastructure:

--Transportation -- better and more efficient transport connections to the Northern Territories such as minibus and rail-links, e.g. expedite construction of possible rail link between North Lantau and Tuen Mun, develop minibus services between North Lantau/Mui Wo and Northern Territories.

-- strengthen connectivity of trunk road between Northern Lantau and Tai O, e.g. proposed study of P1 Road to connect Tai O.

3. Recreation and Outdoor Activities -- Leisure activities -- strengthen cycle track network in Lantau, e.g. cycle track connection between Northern Lantau and Sunny Bay/Disneyland.

Regards,
Albert YEU
