

LC Paper No. CB(4)1122/15-16(13)

(The original version of this submission is in Braille, and
its English translation is attached below)

ABC for university governance

Anyone but CY.

No more explanation required.

The main source for recent deterioration of governance of university is nothing other than the state intervention, or the LCY.

From the HKU board controversy to the diploma- mill director scandals, there are many traits of intervention and disruption by LCY- coloured personnels, which jeopardise the reputation freedom and development of tertiary education in Hong Kong. Not only do these crises affect our personal development of students, but also jeopardizes our, Hong Kong's, status of belt and road community, as well as the competence.

For the sake of Hong Kong's future, please take the serious account whether nominating a chancellor by the president of Hong Kong automatically is constructive to our universities.

When it comes to a candidate of future chancellor of public schools,

ABC. Nothing below.

Alfred Tsow (HKU BA.)

Education Specialist of National Congress of Hong Kong Libre
