Dear Legco Members,
I'm a south island student in year 9.

I fully agree and support to band ivory in Hong Kong, because I think that it's wrong to use innocent elephants for their tusks. I also fully agree that there should be no compensation to the traders. Hong Kong is well-known for its illegality, including smuggling elephant tusks from Africa, I personally think that people should suffer up to 5-10 years imprisonment for this crime and cruelty to elephants.

Elephants are being killed extensively, The number of African elephants fell by around 90 per cent in the past 100 years, to fewer than half a million today. They could be extinct in the wild in a decade. Finally I would like to contribute to make a difference and save the elephants, and I think more people in Hong Kong should be inquired and know about this topic.
