dear legco members,

I am a year nine student from south island school, i have recently learnt that hk has one of the largest ivory trade in the world , i support the banning for ivory sale. Elephants are innocent animals that have done nothing to hurt us humans unless they were trying to defend themselves, i think that all countries should ban ivory trade because it is driving elephants to extinction .Not only is the hunting of ivory hurting elephants but it can also cause harm to human who hunt them. We should really try to help elephants. We should all try to do something to stop this from hapening.
