

Ban Ivory. No Compensation.

To whom it may concern,

My name is Isabelle. My intention is very clear - I support the ivory ban without compensation.

Please help us make Hong Kong home to passionate, loving, and sane people. I truly believe humans are no superior and animals are no inferior. We do NOT have the right to take the lives of ANY animal for money, trades, or pride.

Compensation will only worsen the situation and is evidently a door to the society's ivory black market. We want a civilized society, not a piece of land populated with money-driven, animal-killing, inhumane creatures.

You and I both know these elephants have done NOTHING WRONG, and they should be treated with Fairness and Love, not Bullets and Beheading.

Please, please, please, if you have the power to stop this disaster, do it with determination.

We know what we really should do, and I have done my part. Now, it's your turn. Think about your family and think about the elephant families. Think about the next generations of humankind and think about the elephant babies. The ivory ban is NECESSARY and an ivory ban without compensation is the only way out.

I appreciate your time and patience, and I believe you understand that, together, we can do the right things for the sake of the elephants as much as of the humankind. Thank you.

Regards,

Isabelle
