Dear Ms CHAN,

Follow Up to Meeting on 12 June 2017

Revenue from Car Parks at the Hong Kong International Airport

I am writing in response to the letter dated 13 June 2017 from the Chairman of the Subcommittee to Follow Up Issues Relating to the Three-runway System at the Hong Kong International Airport, requesting the Airport Authority Hong Kong (“AAHK”) to provide information on the revenue generated from car parks at the Hong Kong International Airport (“HKIA”).

Car park revenue constitutes only a very small fraction of AAHK’s total revenue. As set out in our latest Annual Report for financial year 2015/16, revenue from car parks forms part of the Group’s (i.e. AAHK and its subsidiaries) real estate revenue, which was less than 1% of the Group’s total revenue.

Thank you for your attention.
