Capital Works Reserve Fund Block Allocations for 2017-18

INTRODUCTION

This paper briefs Members on the forthcoming funding submission (draft attached) to the Public Works Subcommittee (PWSC) and the Finance Committee (FC) for the Capital Works Reserve Fund (CWRF) block allocations for 2017-18.

BACKGROUND

2. Over the years, the FC has approved the establishment of block allocations under different Heads of Expenditure of the CWRF, covering different types of public works, acquisition of land, capital subventions and computerisation projects. At present, there are a total of 26 block allocations under the CWRF, of which 21 are subject to a financial ceiling of \$30 million in spending on each item. In the case of **Subhead 6101TX – Universal Accessibility Programme** under **Head 706 – Highways**, the financial ceiling is \$75 million for each item. For **Subhead A007GX – New administrative computer systems** under **Head 710 – Computerisation**, the financial ceiling is \$10 million per project. Projects exceeding the above ceilings in cost are submitted to the FC for funding approval on an individual project basis.

3. As for the three remaining block allocations, namely **Subheads 1004CA – Compensation for surrenders and resumptions: miscellaneous** and **1100CA – Compensation and ex-gratia allowances in respect of projects in the Public Works Programme** under **Head 701 – Land Acquisition** and **Subhead 5001BX – Landslip preventive measures** under **Head 705 – Civil Engineering**, the relevant controlling officers are empowered under delegated authority of the FC to approve individual items without a financial limit, provided the spending is a proper charge to the subheads and the aggregate expenditure does not exceed the annual allocation approved by the FC.

/PROPOSAL

PROPOSAL

4. In accordance with the established practice, we seek FC's approval for the funding allocations for the existing block allocations on a lump-sum basis once every year. We propose to seek FC's approval for a total allocation of \$12,420.2 million for 2017-18 for the block allocations under the CWRP and the proposed revision to the ambit of **Subhead 6101TX** under **Head 706**.

5. We also propose to seek FC's approval for increasing the approved allocation for **Subhead 9100WX – Waterworks, studies and investigations for items in Category D of the Public Works Programme** under **Head 709 – Waterworks** for 2016-17 by \$68.2 million from \$785.3 million to \$853.5 million to meet the increased expenditure in 2016-17. This will increase the provision for CWRP block allocations for 2016-17 from \$12,826.7 million to \$12,894.9 million, representing an increase of 0.5%.

ADVICE SOUGHT

6. Members are invited to note the content of the draft PWSC submission on the CWRP block allocations concerning the proposals in paragraphs 4 and 5 above.

- (a) approve a total allocation of \$12,420.2 million for 2017-18 for the block allocations under the Capital Works Reserve Fund;
- (b) increase the approved allocation for **Subhead 9100WX** under **Head 709** for 2016-17 by \$68.2 million from \$785.3 million to \$853.5 million; and
- (c) revise with effect from 2017-18, the ambit of **Subhead 6101TX** under **Head 706** as set out in paragraphs 13 and 14 below.

/I.

I. PROPOSED PROVISION FOR 2017-18**PROPOSAL**

We propose a total allocation of \$12,420.2 million for the block allocations under the following Capital Works Reserve Fund (CWRP) Heads of Expenditure for 2017-18 –

Head	Description	Proposed allocation (\$ million)
701	Land Acquisition	1,878.4
702	Port and Airport Development	0.0
703	Buildings	2,918.0
704	Drainage	400.5
705	Civil Engineering	1,507.6
706	Highways	1,619.8
707	New Towns and Urban Area Development	640.0
708 (part)	Capital Subventions	1,438.9
709	Waterworks	872.6
710	Computerisation	990.0
711	Housing	154.4
	Total:	12,420.2

/JUSTIFICATION

JUSTIFICATION

2. Unless otherwise approved, expenditure items under the CWRP should be approved by the Finance Committee (FC) on a project-by-project basis in accordance with the terms of the Resolution made by the Legislative Council (LegCo) in establishing the CWRP. To enable Members of the FC and the Public Works Subcommittee (PWSC) to make better use of their time and concentrate on the more important and higher value projects, the FC has authorised the Government to seek funding for the CWRP block allocations on a lump-sum basis once every year. Within the lump-sum approved for each CWRP block allocation, the FC has further delegated to the Government the power to approve expenditure on individual projects subject to the respective financial ceiling.

3. Block allocations underpin the delivery of capital works projects in two main ways. First, they provide funds for works departments to establish the technical feasibility and prepare the detailed design and tender documents of major capital works projects prior to seeking FC's funding approval for the construction works. Second, they enable works departments to carry out standalone minor improvement items of a smaller scale or at the district level (e.g. minor building works for schools and public facilities, local roadworks and drainage improvements) in a more efficient manner.

OVERVIEW OF THE PROPOSED ALLOCATIONS

4. The proposed provision for CWRP block allocations for 2017-18 totals \$12,420.2 million. Subject to FC's funding approval for increasing the 2016-17 approved allocation of **Subhead 9100WX** by \$68.2 million (please see paragraphs 9 to 12 below), the total approved allocation for 2016-17 will be increased from \$12,826.7 million to \$12,894.9 million. The proposed allocation for 2017-18 represents an overall decrease of 3.7% against the allocation in 2016-17 as set out below –

Head	Description	CWRP block allocations		Percentage change (%)
		2016-17 approved allocation (\$ million)	2017-18 proposed allocation (\$ million)	
701	Land Acquisition	2,707.2	1,878.4	- 30.6%
702	Port and Airport Development	0.0	0.0	-

/Head

Head	Description	CWRF block allocations		Percentage change (%)
		2016-17 approved allocation (\$ million)	2017-18 proposed allocation (\$ million)	
703	Buildings	2,730.5	2,918.0	+ 6.9%
704	Drainage	372.8	400.5	+ 7.4%
705	Civil Engineering	1,772.2	1,507.6	- 14.9%
706	Highways	1,537.6	1,619.8	+ 5.3%
707	New Towns and Urban Area Development	607.0	640.0	+ 5.4%
708 (part)	Capital Subventions	1,176.1	1,438.9	+ 22.3%
709	Waterworks	853.5 ¹	872.6	+ 2.2%
710	Computerisation	990.0	990.0	-
711	Housing	148.0	154.4	+ 4.3%
	Total	12,894.9	12,420.2	- 3.7%
	Total for works-related block allocations (i.e. excluding those under Heads 701 and 710)	9,197.7	9,551.8	+ 3.8%

5. In drawing up the funding requirements for 2017-18, we have taken into account past expenditure patterns, existing commitments and projects expected to be undertaken in the coming financial year under each of the subheads. Balancing the need for fiscal prudence with the need to implement minor works items and preparatory work for major projects, we consider the proposed total allocation for the works-related block allocations appropriate. The Government will monitor the progress of minor works items. If supplementary provisions are required, we will seek FC's approval as appropriate.

/WORKS-RELATED

¹ Subject to FC's approval for increasing the 2016-17 approved allocation of **Subhead 9100WX** by \$68.2 million, the total approved allocation for 2016-17 for the only block allocation under **Head 709** would increase from \$785.3 million to \$853.5 million.

WORKS-RELATED BLOCK ALLOCATIONS

6. The following top five key expenditure subheads will take up around 57.6% of the total allocation for works-related block allocations for 2017-18 –

Subhead	2017-18 proposed allocation (\$ million)
(a) 3004GX – Refurbishment for government buildings (including public facilities with leisure, cultural services and environmental hygiene elements such as parks and public toilets)	1,969.9
(b) 5001BX – Landslip preventive measures	1,041.4
(c) 9100WX – Waterworks, studies and investigations	872.6
(d) 6101TX – Universal Accessibility Programme	850.0
(e) 6100TX – Highway works, studies and investigations for items in Category D of the Public Works Programme	769.8
Total for top five key expenditure subheads	<u><u>5,503.7</u></u>

BLOCK ALLOCATIONS BY HEADS OF EXPENDITURE

7. Details on the funding sought for the CWRP block allocations for 2017-18 are set out in Enclosures 1 to 11. We have highlighted in each Enclosure –

- (a) a comparison of the proposed allocation for 2017-18 against the 2016-17 approved allocation;
- (b) the main reasons for major variations (i.e. with variations greater than 15%); and
- (c) the key on-going expenditure items and new items in 2017-18.

8. We have deposited with the LegCo Secretariat a full list of all the items proposed to be funded under each of these block allocations for 2017-18. The list is prepared based on information currently available to departments and subvented bodies. Adjustment may be made to the list during the course of the year to cater for changing circumstances or evolving needs.

/II.

II. PROPOSED INCREASE IN ALLOCATION FOR SUBHEAD 9100WX FOR 2016-17

PROPOSAL

9. We also propose to increase the approved allocation for **Subhead 9100WX – Waterworks, studies and investigations for items in Category D of the Public Works Programme** under **Head 709 – Waterworks** by \$68.2 million from \$785.3 million to \$853.5 million to meet the increased expenditure in 2016-17.

JUSTIFICATION

10. Having reviewed critically the financial position of the block allocation **Subhead 9100WX**, the Water Supplies Department, with support of the Development Bureau, considers it necessary to seek to increase the provision by \$68.2 million for –

- (a) implementing new items (\$25.8 million) on urgent improvement works to water mains, waterworks buildings and slopes; and
- (b) meeting additional cash flow requirements of on-going projects with better-than-expected progress (\$42.4 million) as follows –
 - (i) improvement works to service reservoirs, pumping stations and waterworks installations (\$9.9 million);
 - (ii) improvement works to water mains (\$11.5 million); and
 - (iii) improvement works to slopes (\$21.0 million).

Details on items relating to the proposed increase in allocation are provided in Enclosure 12.

11. We need to advance the implementation programme of the three new urgent items as stipulated in paragraph 10(a) above to meet the operation and safety requirements. These new items had not been included at the time of preparing the 2016-17 estimates for the works under **Subhead 9100WX**. As such, an additional allocation of \$25.8 million is required.

/12.

12. For the additional \$42.4 million required for the 15 on-going projects mentioned in paragraph 10(b) above, the reasons for their better-than-expected progress are as follows –

- (a) increase in the contractors' resources for works (10 projects);
- (b) urgent improvement for operation and safety reasons (four projects); and
- (c) fewer site constraints than expected (one project).

III. REVISION TO THE AMBIT OF SUBHEAD 6101TX

PROPOSAL

13. We propose to amend the ambit of **Subhead 6101TX – Universal Accessibility (UA) Programme** under **Head 706** as follows –

Original ambit:

For projects costing up to \$75 million each to provide universal accessibility facilities (i.e. retrofitting of lifts or ramps, demolition of existing ramps and associated works) to existing public walkways (i.e. footbridges, elevated walkways and subways) to improve the accessibility for the public. It covers various costs to be incurred in the planning, design and construction of the projects, including consultants' fees and charges for project management, feasibility studies, investigation, design, contract procurement and construction supervision, as well as the construction cost.

Proposed revised ambit:

For projects costing up to \$75 million each to provide universal accessibility facilities (i.e. retrofitting of lifts or ramps, demolition of existing ramps and associated works) to existing walkways² to improve the accessibility for the public. It covers various costs to be incurred in the planning, design and construction of the projects, including consultants' fees and charges for project management, feasibility studies, investigation, design, contract procurement and construction supervision, as well as the construction cost.

/ **JUSTIFICATION**

² Refer to footbridges, elevated walkways and subways, which are either maintained by the Highways Department (HyD) or are not maintained by the HyD but meet the following criteria –

JUSTIFICATION

14. The scope of the new policy announced by the Government in August 2012 covers the public walkways maintained by the HyD. However, some walkways proposed by the public for lifts retrofitting are not public walkways and are therefore beyond the scope of the UA Programme. After reviewing the circumstances, we propose to enhance the Programme so as to strike a balance between the principle of prudent use of public funds and responding to public aspirations. In the 2016 Policy Address, the Government announced that starting from the fourth quarter of 2016, we will invite the DCs to further nominate not more than three existing walkways in each district for the second phase of the UA Programme. The walkways eligible for selection by the DCs will no longer be confined to public walkways maintained by the HyD, provided that certain criteria are met.

FINANCIAL IMPLICATIONS

15. The total proposed allocation for all the block allocations under the CWRP for 2017-18 is \$12,420.2 million. The increase in allocation for **Subhead 9100WX** for 2016-17 is \$68.2 million, which will increase the provision for CWRP block allocations for 2016-17 from \$12,826.7 million to \$12,894.9 million.

PUBLIC CONSULTATION

16. The Office of the Government Chief Information Officer (OGCIO) consulted the Panel on Information Technology and Broadcasting (ITB Panel) on the proposed allocation for the only block vote under **Head 710 – Computerisation** on 14 November 2016.

17. The Transport and Housing Bureau (THB) consulted the Panel on Transport on 18 November 2016 on the implementation of UA Programme under **Subhead 6101TX** under **Head 706 – Highways**.

/18.

-
- (a) the walkways span across public roads maintained by HyD;
 - (b) they are open for public access from public roads at all times;
 - (c) the walkways are not privately owned; and
 - (d) the parties responsible for the management and maintenance of these walkways agree to such retrofitting proposals and are willing to cooperate with the Government during the implementation of the said lift retrofitting works as well as the subsequent management and maintenance works of the lifts.

18. We circulated the funding proposals in this paper to the Panel on Development on 15 November 2016.

BACKGROUND INFORMATION

19. Over the years, FC has approved the establishment of block allocations under the CWRP on various types of public works projects, acquisition of land, capital subventions and computerisation projects. At present, there are a total of 26 block allocations under the CWRP, of which 21 are subject to a financial ceiling of \$30 million in spending on each item. In the case of **Subhead 6101TX – Universal Accessibility Programme** under **Head 706 – Highways**, the financial ceiling is \$75 million for each item. For **Subhead A007GX – New administrative computer systems** under **Head 710 – Computerisation**, the financial ceiling is \$10 million per project. Projects exceeding the above ceilings in cost are submitted to FC for funding approval on an individual project basis.

20. As for the three remaining block allocations, namely **Subheads 1004CA – Compensation for surrenders and resumptions: miscellaneous** and **1100CA – Compensation and ex-gratia allowances in respect of projects in the Public Works Programme** under **Head 701 – Land Acquisition**, and **Subhead 5001BX – Landslip preventive measures** under **Head 705 – Civil Engineering**, FC has delegated the authority to the relevant controlling officers to approve individual items without a financial limit, provided the spending is a proper charge to the subheads and the aggregate expenditure does not exceed the annual allocation approved by FC.

21. As in past years, we include in this submission the proposed allocations for the block allocations under **Head 701 – Land Acquisition** and **Head 710 – Computerisation**, which are non-works items providing funds for land acquisition and computerisation projects respectively under the CWRP for approval by FC via PWSC in a single exercise.

22. We estimate that the proposed allocation of \$9,551.8 million for works-related block allocations in 2017-18 will create about 14 000 jobs (13 000 for labourers and another 1 000 for professional/technical staff) providing a total employment of 150 000 man-months.

**Proposed Allocation in 2017-18 for the Block Allocations under
Head 701 – Land Acquisition**

There are two block allocations under **Head 701**, namely, **Subheads 1004CA** and **1100CA**. The proposed allocation for 2017-18 is \$1,878.4 million. This represents a 30.6% decrease from the approved allocation of \$2,707.2 million for 2016-17.

2. The proposed decrease in allocation for **Subhead 1100CA** (by \$828.7 million from \$2,690.5 million in 2016-17 to \$1,861.8 million in 2017-18) is mainly due to the decrease in number and cash flow requirements of new projects in 2017-18.

3. Details on the key expenditure items for each of the above subheads are set out at **Annexes 1A** and **1B**.

Head 702 – Port and Airport Development

We are not seeking any funding for the three subheads under **Head 702** for 2017-18 –

- (a) **Subhead 2001AX** – Consultants’ fees for feasibility investigations and design and major in-house investigations for Port and Airport Development Strategy (PADS) related civil engineering projects;
- (b) **Subhead 2002AX** – Consultants’ fees for feasibility investigations and design and major in-house investigations for PADS related transport projects; and
- (c) **Subhead 2003AX** – Consultants’ fees for feasibility investigations and design and major in-house investigations for PADS related territorial development projects.

**Proposed Allocation in 2017-18 for the Block Allocations under
Head 703 – Buildings**

There are three block allocations under **Head 703**, namely, **Subheads 3004GX, 3100GX** and **3101GX**. The proposed allocation for 2017-18 is \$2,918 million. This represents a 6.9% increase from the approved allocation of \$2,730.5 million for 2016-17.

2. The proposed increase in allocation for **Subhead 3100GX** (by \$52.8 million from \$128.8 million in 2016-17 to \$181.6 million in 2017-18) is mainly due to higher cash flow requirements for on-going and new projects.

3. Details on the key expenditure items for each of the above subheads are set out at **Annexes 3A to 3C**.

¹ Refer to footbridges, elevated walkways and subways, which are either maintained by the HyD or are not maintained by the HyD but meet the following criteria –

- (a) the walkways span across public roads maintained by HyD;
- (b) they are open for public access from public roads at all times;
- (c) the walkways are not privately owned; and
- (d) the parties responsible for the management and maintenance of these walkways agree to such retrofitting proposals and are willing to cooperate with the Government during the implementation of the said lift retrofitting works as well as the subsequent management and maintenance works of the lifts.

**Proposed Allocation in 2017-18 for the Block Allocations under
Head 707 – New Towns and Urban Area Development**

There are four block allocations under **Head 707**, namely, **Subheads 7014CX, 7016CX, 7017CX** and **7100CX**. The proposed allocation for 2017-18 is \$640 million. This represents a 5.4% increase from the approved allocation of \$607 million for 2016-17.

2. **Subhead 7017CX** is for funding the preparatory and pre-construction works of projects under the Signature Project Scheme. The decrease in the proposed allocation for **Subhead 7017CX** (by \$10.8 million from \$12 million in 2016-17 to \$1.2 million in 2017-18) is mainly because most of these works are gradually completed. As such, the cash flow requirements for 2017-18 will be significantly lower than that of 2016-17.

3. The proposed increase in allocation for **Subhead 7100CX** (by \$43.8 million from \$115 million in 2016-17 to \$158.8 million in 2017-18) is mainly due to higher cash flow requirements arising from a number of on-going projects.

4. Details on the key expenditure items for each of the above subheads are set out at **Annexes 7A to 7D**.

**Proposed Allocation in 2017-18 for the Block Allocations under
Head 708 (part) – Capital Subventions**

There are five block allocations under **Head 708**, namely, **Subheads 8100BX, 8100EX, 8100MX, 8100QX and 8001SX**. The proposed allocation for 2017-18 is \$1,438.9 million. This represents a 22.3% increase from the approved allocations of \$1,176.1 million for 2016-17. We are not seeking any funding for **Subhead 8100MX – Hospital Authority—improvement works, feasibility studies, investigations and pre-contract consultancy services for building projects** for 2017-18.

2. The proposed increase in allocation for **Subhead 8100QX** (by \$234.1 million from \$441.1 million in 2016-17 to \$675.2 million in 2017-18) is mainly due to increased cash flow requirements arising from improvement works for public sector schools and conversion works for temporary classrooms in public sector primary schools to cater for increase in primary one places.

3. The proposed decrease in allocation for **Subhead 8001SX** (by \$29.4 million from \$192.5 million in 2016-17 to \$163.1 million in 2017-18) is mainly due to lower cash flow requirements of on-going projects.

4. Details on the key expenditure items for each of the above subheads are set out at **Annexes 8A to 8D**.
