Dear Mr Lam

The Board of Airlines Representatives (BAR) represents over 70 airlines operating in Hong Kong. On behalf of the airlines community, we are pleased to inform that operation at the Hong Kong International Airport (HKIA) has continued to be smooth since the implementation of the new Air Traffic Management System (ATMS).

We fully support the implementation of the new ATMS by the Civil Aviation Department (CAD), and firmly believe it is instrumental to strengthening Hong Kong's status as one of the world's leading aviation hubs.

The airlines are confident that the CAD will successfully enhance operational efficiency as a result of the new system, which will be of considerable benefit to the long-term development of Hong Kong.

Yours sincerely

Ivan Chu
Chairman
Board of Airline Representatives Hong Kong
