Dear Chairman and fellow committee,

As life is different in this century, many people choose to keep pets nowadays instead of having children. Maybe public facilities can adjust a bit, so that both human n animals could live under the same sky peacefully.

Housing

- ~ shd control but not banned
- ~ new government housing n subsidised housing should consider allowing pets

Public transportation

MTR n Buses

- ~ special entrance for pets
- ~ allow pets at non-peak hrs
- ~ maybe a section separate for pets n owners only (in case some people dislike animals)

Thank you kindly for your consideration.

Thanks with kind regards,
Gilda Ho
