

Panel on Information Technology and Broadcasting

List of outstanding items for discussion

(position as at 4 July 2017)

**Proposed timing
for discussion**

1. Internet access service in rural areas

The Administration will brief the Panel on the Internet access service in rural areas.

To be confirmed

2. Spectrum trading

The former Office of the Telecommunications Authority (replaced by the Office of the Communications Authority since 1 April 2012) appointed a consultant to study the feasibility of introducing radio spectrum trading in Hong Kong for facilitating economic and technically efficient use of this scarce public resource. In June 2016, the Administration indicated that it would conduct a study on the latest overseas experience including the updated market situation to chart the way forward. The Administration will brief the Panel on the progress of this matter.

To be confirmed
