Note: The Administration has advised that the Hong Kong Planning Standards and Guidelines ("HKPSG") are a comprehensive and amalgamated set of standards and guidelines covering a wide and diverse range of land uses and facilities, as well as planning and land use related topics to guide reservation of sites for such purposes, cutting across various policy areas and involving vastly different considerations spanning over the purview of many bureaux and departments ("B/Ds"). According to the existing mechanism, topical reviews of specific standards and guidelines in the HKPSG are conducted by individual B/Ds as and when necessary, taking into account the concerned B/Ds' latest relevant policies and development requirements. Opportunities would also be taken upon such topical reviews to assess the need to review relevant or related standards and guidelines, as well as the planning practices for their implementation. The Administration does not consider it necessary or practicable to conduct a review of the whole HKPSG. If revision of existing standards and guidelines or formulation of new standards and guidelines is considered necessary, it could be taken forward at the request of relevant B/Ds in accordance with the established mechanism. According to the Administration, if Panel members have any question about specific areas of the planning standards and guidelines, the Development Bureau and the Planning Department stand ready to coordinate with the relevant B/Ds to provide specific responses as appropriate.
