4. Management of restored landfills

1st quarter of 2020

In his letter to the Chairman dated 25 May 2018 (LC Paper No. CB(1)1023/17-18(01)), Mr Kenneth LEUNG proposed discussion on the captioned subject, including the progress of developing public facilities on the 13 restored landfills, implementation progress of the Restored Landfill Revitalisation Funding Scheme, and issues related to the handling of landfill gas, leachate and uneven ground settlement on the sites concerned.

5. Management of yard waste

1st or 2nd quarter
of 2020

At the meeting on 11 October 2018, Mr CHU Hoi-dick and Dr Elizabeth QUAT suggested that the Panel discuss the overall management of yard waste and measures to promote reuse/recycling of such waste, including the contingency arrangements for fallen trees and branches caused by natural disasters.

6. Provision of sewerage network in Lantau and Lamma

2nd quarter of 2020

The Administration will seek members' views on the proposed upgrading of the following sewerage projects to Category A:

- (a) 4353DS – Outlying Islands sewerage stage 2 – extension of sewerage system to other unsewered villages in Mui Wo, whose aim is to construct sewerage works for village areas in Mui Wo; and
- (b) 4355DS – Outlying Islands sewerage stage 2 – Lamma village sewerage phase 2, package 2, whose aim is to construct sewerage network for village areas in Lamma Island.

The Administration plans to submit the proposal to the Public Works Subcommittee and the Finance Committee in the second quarter of 2020.

7. Enhanced protection of green turtles

3rd or 4th quarter
of 2020

The Administration will consult the Panel on the proposed measures to further enhance the protection of green turtles.

**Proposed timing
for discussion**

At the meeting on 17 October 2019, Mr HUI Chi-fung suggested that the Panel should further discuss the geographical coverage of the Sham Wan Restricted Area, which was designated for the protection of green turtles.

8. Management of marine fill and marine disposal of dredged/excavated sediment

4th quarter of 2020

The Administration will brief the Panel on the management of marine fill and disposal of dredged/excavated sediments by the project owners.

The subject was raised by Mr Steven HO at the meeting on 15 December 2014.

At the meeting on 28 November 2016, Mr LEUNG Yiu-chung suggested the Panel discuss the environmental issues relating to illegal disposal of construction and demolition materials into the sea/river. The Administration advised that these issues could be discussed under this item.

9. Implementation of the Minamata Convention on Mercury ("the Convention") in Hong Kong

To be confirmed

The Administration will brief the Panel on the strategy for implementing the Convention in the Hong Kong Special Administrative Region ("HKSAR"), including the legislative proposal on regulation of mercury, mercury compounds and mercury-added products for fulfilling HKSAR's obligations effectively.

10. Combating climate change

To be confirmed

The Administration will update the Panel on the work related to the public engagement on Long-term Decarbonisation Strategy conducted by the Council for Sustainable Development.

As suggested by Mr CHU Hoi-dick at the meeting on 12 October 2017, members agreed that the topic of climate change should be brought up for discussion by the Panel every year. At the meeting on 11 October 2018, Mr CHU further proposed that the Administration should review its targets and strategies for reducing greenhouse gas emissions with reference

**Proposed timing
for discussion**

to the findings in the Special Report on Global Warming of 1.5°C published by the Intergovernmental Panel on Climate Change in October 2018; and Dr Elizabeth QUAT suggested that the Administration should brief members on the use of new technologies to combat climate change, thereby contributing to the development of a "smart environment". On 28 March 2019, Dr QUAT wrote to the Chairman (LC Paper No. CB(1)929/18-19(01)) appealing for early discussion of the topic.

11. Management of waste paper and waste plastics

To be confirmed

Management of waste paper

As suggested by Mr Kenneth LEUNG at the meeting on 12 October 2017, members requested the Administration to step up efforts to reduce use of paper towels in public toilets.

Mr HUI Chi-fung wrote to the Chairman on 27 February 2018 (LC Paper No. CB(1)663/17-18(01)) proposing discussion on the recycling of waste paper, including the Administration's policy on supporting the local recycling of waste paper.

Management of waste plastics

In his letter to the Chairman dated 24 November 2017 (LC Paper No. CB(1)281/17-18(01)), Mr KWOK Wai-keung proposed discussion on the regulation of the manufacturing and sale of products containing microplastics in Hong Kong. The Administration's written response was circulated to members on 15 December 2017 vide LC Paper No. CB(1)360/17-18(01).

Mr HUI Chi-fung wrote to the Chairman on 6 June 2018 (LC Paper No. CB(1)1084/17-18(01)) proposing discussion on the regulation of single-use plastic products.

12. Excessive external lighting and noise pollution

To be confirmed

As suggested by Dr Elizabeth QUAT and Mr SHIU Ka-fai at the meeting on 30 October 2017, members agreed to discuss the Administration's initiatives to regulate excessive external lighting and noise pollution.

On 12 April 2018 and 6 August 2019, the Panel received two

**Proposed timing
for discussion**

referrals (LC Paper Nos. CB(1)802/17-18(01) and CB(1)1373/18-19(01)) arising from the meetings between Legislative Council Members and Wan Chai District Council members on 26 January 2018 and 28 June 2019 regarding the regulation of external lighting installations.

13. Review of the environmental impact assessment ("EIA") system

To be confirmed

Mr Kenneth LEUNG wrote to the Chairman on 24 November 2015 (LC Paper No. CB(1)202/15-16(01)) proposing discussion on the review of the EIA system, including the arrangements for the conduct of EIAs, public consultation arrangements, and enforcement of the environmental permit conditions. The Administration's response was circulated vide LC Paper No. CB(1)537/15-16(01) on 3 February 2016.

At the meeting on 11 October 2018, Mr Steven HO brought this issue up and suggested that the Administration should improve the transparency of the EIA system and public understanding of EIA reports, in anticipation of public concerns over the environmental impact of future reclamation works. In his letter to the Chairman dated 19 March 2019 (LC Paper No. CB(1)752/18-19(01)), Mr HO further expressed concerns about the ineffectiveness of EIAs in reflecting the cumulative environmental impacts of marine works projects and works related to new development areas on the agriculture and fisheries industries. The Administration's written response to the letter was circulated to members on 8 April 2019 vide LC Paper No. CB(1)859/18-19(01).

14. Existing policies on bicycles and promoting bicycles as a mode of transport as an initiative to improve roadside air quality

To be confirmed

Mr HUI Chi-fung wrote to the Chairman on 23 May 2017 (LC Paper No. CB(1)1009/16-17) proposing to hold a joint meeting with the Panel on Transport to discuss issues relating to the existing policies on bicycles and promoting bicycles as a mode of transport. Mr HUI further wrote to the Chairman on 12 October 2017 proposing to discuss bicycle-friendly policies (LC Paper No. CB(1)86/17-18(01)).

Separately, an item on "Improvement works of cycle track

**Proposed timing
for discussion**

network in new towns and latest situation of automated dockless bicycle rental services" is currently on the list of outstanding items for discussion of the Panel on Transport.

15. Control of invasive alien species

To be confirmed

At the meeting on 11 October 2018, Mr CHAN Han-pan proposed discussion on the measures to cope with the threats of invasive alien species to local habitats, with particular focus on *Mikania micrantha* and *Leucaena leucocephala*.

16. Regulation of trade in bear bile products

To be confirmed

This item was raised at the meeting on 11 October 2018 by Dr Elizabeth QUAT who expressed concern about the inhumane practice of extracting bile from live bears. Members would like to be briefed on the statistics on and regulation of trading activities associated with bear bile and its products, and whether the Administration would consider prohibiting the trade in products containing bile extracted from live bears.

17. Electric vehicle ("EV") charging-enabling infrastructure in car parks of private residential buildings

To be confirmed

Mr Kenneth LEUNG suggested at the meeting on 17 October 2019 that the Panel discuss the pilot subsidy scheme to be formulated by the Environment Bureau for promoting the installation of EV charging-enabling infrastructure in car parks of existing private residential buildings.

18. Environmental impact of the use of tear gas

To be confirmed

This item was raised by Ms Tanya CHAN on behalf of Mr CHAN Chi-chuen at the meeting on 17 October 2019. Ms CHAN suggested that the Administration should brief the Panel on the environmental and health impacts of the frequent use of tear gas in the community in the preceding few months, and how it would tackle the environmental pollution, if any, caused by tear gas residues.
